

Galgotias University hosts debate Competition on Gender Equality

Galgotias University recently organized a thought-provoking debate competition on the timely topic, “Can reservation for women in India truly achieve gender equality?” The event was graced by esteemed guests, Ms. Rita Bahuguna Joshi, Former Cabinet Minister of Uttar Pradesh, and Lt. Ashutosh Pandey, Under Secretary, National Commission for Women. The debate brought forth innovative perspectives and arguments from the participants, showcasing their critical thinking and public speaking skills. After a fierce contest, the

winner was announced, and they will now represent Galgotias University at the National Final. Ms. Rita Bahuguna Joshi and Lt. Ashutosh Pandey shared their expertise and insights on gender equality. Thought-Provoking Topic: “Can reservation for women in India truly achieve gender equality?” sparked interesting discussions and debates. National Representation: The winner will represent Galgotias University at the National Final. This debate competition reflects Galgotias University’s commitment

to fostering dialogue, leadership, and social responsibility among its students ¹. By providing a platform for students to engage with critical issues, the university aims to shape the minds of future leaders and change-makers. Galgotias University is renowned for its dynamic and vibrant campus life, characterized by a wide range of events and activities throughout the academic year. These events cater to diverse interests, offering students a platform to showcase their talents and develop their skills.

Galgotias University Clinches Glory at Udghosh’24, IIT Kanpur’s Prestigious Sports Festival

2 October 6th, 2024, Udghosh, is the Annual Sports Festival of Indian Institute of Technology Kanpur being the greatest college sports' festival of India, organizes enthralling sports competitions with participation from 400+ colleges from across India, along with marvellous entertaining events like comedy night, EDM night, Bollywood night, and various exhibitions. Galgotias University has made a stellar mark at Udghosh'24, the esteemed sports festival organized by IIT Kanpur, securing prestigious medals in badminton and basketball. IIT KANPUR presents the 20th edition of UDGHOSH this year The university's talented athletes bagged a Silver Medal in Badminton for the Girls team and a Bronze Medal in Basketball for the Boys team Outshining top institutions, including IIT, IIIT, IIM, and many more

institutes showcased their skills and commitment towards their respective sports during the entire Sports Festival. Galgotias University's champion teams unveiled their exceptional skills, teamwork, and determination. "We are incredibly proud of our students' achievements, demonstrating their excellence beyond academics," said. Their dedication and success are a testament to our university's commitment to fostering holistic development." said Mr. Prashant Bhardwaj, Sports Officer, Galgotias University. This impressive feat underscores Galgotias University's growing reputation as a hub for sports excellence, nurturing talented athletes and promoting a culture of fitness and teamwork. Let us have a brief overview of the Galgotias Sports Department to better

understand the seriousness of the players as well as the faculty who take great initiative to stand out in almost every other tournament they head into. The university has over 20 distinct sports facilities, including Swimming Pool, Archery, Futsal, Squash, Gym, Carrom, Yoga, Volleyball, Table Tennis, Pool, Martial Arts, Kabaddi, Hockey, Football, Cricket, Chess, Basketball, Badminton, and Athletics. The sports department is led by experienced professionals, including Mr. Prashant Bhardwaj, Sports Officer, and Prateek Kumar Singh, Sports Head. The university also has a strong focus on sports culture, with various events and tournaments organized throughout the year and its commitment to sports is evident in its achievements, with students winning medals and top positions in prestigious tournaments across the nation.

Galgotias University Hosts Expert Talk on Softer Testing

Galgotias University's University Polytechnic recently organized an expert talk on "Role of Human Expertise in Software Testing" to upgrade students' skill sets. Mr. Rajat

Tyagi, Team Lead at Tech Mahindra, shared insights on software testing frameworks and cloud environments. Galgotias University's Department of Medical Laboratory Technology observed International Biomedical Laboratory Science Week. The event highlighted the crucial

role of biomedical laboratories in healthcare and public health. Galgotias University hosted students from Temasek Polytechnic, Singapore, for a cultural exchange program. The visit fostered intellectual growth, cross-cultural understanding, and global citizenship.

Galgotias School of Nursing observed International Nurses Day with competitive programs, cultural events, and a lecture by Principal Neetu Bhadoria. Galgotias University hosted the Vikram Sarabhai Space Exhibition, attracting over 10,000 students. The event featured interactive exhibits, ISRO scientist interactions, and live rocket launching demos. Galgotias University offered free soil testing services to local farmers, promoting sustainable agricultural

practices and ecosystem restoration. Galgotias University's NSS Unit-1 organized a commemorative event to honour the historical significance of the 1857 rebellion. Galgotias University's Department of Electrical, Electronics & Communication Engineering organized REECE-2024, a faculty development program on recent advances in electrical, electronics, and communication engineering.

3 Development through Integration: International Conference on Applied Psychology and Business Management (APBM)

Galgotias University took part in the APBM 2022 – III International Conference on Applied Psychology and Business Management was held on 27th -30th October 2022 in Antalya, Turkey. The conference focused on latest psychological trends and concepts, organisational behaviour, behavioural economics and other related disciplines in concern of the national and global goals of the sustainable development. The initiative to hold APBM Conference was inspired by the urgency to unite the efforts and expertise of researchers and practitioners from the fields

of social sciences and businesses, to raise awareness about research and advancements in international business, management and psychology. The conference was chaired by the Professor (Dr.) Iryna Sekret, IATELS committee Chaired Turkey. The welcoming address was given by Prof (Dr.) Anuradha Prasar, Dean School of Liberal Education. Professor (Dr.) Preeti Bajaj, Honourable Vice Chancellor, Galgotias University and Ms. Aradhana Galgotia (Director Operations), Galgotias University, also graced the conference. Researchers

from different countries participated in the conference in large numbers and shared the research experiences of their respective domains. invited talks, workshops and oral presentations, both real-time and virtual, comprised the dynamic conference. The conference provided a platform for researchers, practitioners, and students to share their knowledge and experiences, and to network with peers in the field of applied psychology and business management.

Fintopedia Bullrisers Workshop

The School of Business at Galgotias University, in collaboration with Fintopedia, hosted the Bullrisers 2024-25 workshop titled “Smart Money Moves” on January 22, 2024. The event aimed to enhance financial literacy and introduce students from various disciplines to smart investment strategies. The workshop commenced with an inaugural address by Dr. Jagannath Mohanty, Dean, School of Business. He emphasized on the importance of financial literacy and acknowledged

Fintopedia for their collaboration in creating an engaging learning platform. The skills required to succeed in the field of finance, the growing demand for finance professionals, and the evolving landscape of fintech were vividly elaborated by Mr. Ankit Mehta, Chief Strategic Officer at Fintopedia. He provided valuable insights on investment options tailored for young investors, such as mutual funds, equities, bonds, and SIPs. Significance of early investments and compounding was emphasised upon as he went ahead and explored career opportunities in the finance industry while guiding students on the necessary skills. An interactive stock market simulation game engaged the students in real-time trading scenarios. The top performers were awarded certificates by Fintopedia. The event concluded with Dr. Jaideep Sharma, Program Chair (Finance), recognizing the contributions of Fintopedia, the faculty, and students.

The workshop succeeded in boosting financial awareness and providing hands-on learning experiences. The Workshop was highly successful in achieving its objectives of increasing financial literacy among students and giving them hands-on experience in stock market activities. The interactive elements of the session, coupled with expert insights from Mr. Mehta, made the event both educational and enjoyable for all attendees.

Is AI going to take my job?

“Is AI going to take my job?” is the most commonly asked question as soon as the topic of artificial intelligence is brought up. To address many such questions regarding the role of AI in the upcoming world especially in the field of content creation; this seminar was organised on ‘Revolutionizing content creation in India: leveraging AI and Digital Platforms to reach the next Billion Users’. To get a wider perspective on the nature and endless possibilities of the AI revolution storming India, students from Department of Journalism and Mass Communication of Galgotias University attended a Seminar organized by Brut at Surya hall in Bharat Mandapam, New Delhi. The proceedings certainly invoked a sense of adventure, vitality, spiritedness and enthusiasm just like the rising sun. The esteemed panel of Speakers included many popular

personalities from the gallows of tech and media industry which included Ms Sahiba Bali (Actress) Mr Rajiv Makhni (Tech Influencer) Along with the Honorable Union Minister Shri Jyotiraditya M. Scindia The discussions went through a rollercoaster of topics and introspection which highlighted the importance, expected influence and limitations of AI. Some of the key aspects being: The utility of AI in expanding the reach of content beyond vernacular barriers to the linguistically diversified masses in India. Reduction of clerical work burden on people which in turn would enable them to utilize their time more efficiently and achieve a greater content quality as well as generate a wider reach. The benefit of AI in increasing the reach of content by suggesting suitable ideas and themes while targeting relevant audience by algorithm management and variety of visibility filters. The speakers through their experience in the field elucidated on the fears regarding AI while cautioning about its natural cons. “The emotions in a man are stirred more quickly than a man’s intelligence”, said Oscar Wilde while describing human society and if we think that AI would replace humans at their jobs

might be the biggest myth there is for it doesn’t and will never have a ‘humane touch’ superior to humans themselves! On the other hand, Indian content creators must remain wary of deep fakes and online scams which seem to mutate at break-neck speed, they must also find unique ways to keep the citizens aware of these as well. Shri Jyotiraditya Scindia also stated that the government is seeking to encourage creativity with AI amongst the youth but is also keen on keeping a strict restraint on frauds and scams. In addition, he would wish for it to formulate a strategy in order to forge a link of efficient communication between opportunities being provided by the ministry and its potential benefactors so that they can be benefitted from the endeavours of the government. The seminar on this note he established an optimistic halo around the phenomenon of AI revolution, encouraging the innovative

Galgotias University attends QS Higher Ed Summit: Asia Pacific 2024

Galgotias University recently Participated in the Quacquarelli Symonds Higher Ed Summit: Asia Pacific 2024, held in the vibrant city of Macau. This prestigious event brought together leaders, innovators, and key stakeholders from academia, industry, and government, creating a dynamic platform for dialogue, networking, and collaboration. Galgotias University revived an award, in recognition of its outstanding contributions to higher education in the region. The accolade was presented by Ashwin Fernandes and Jessica Turner of QS, who acknowledged the university’s persistent pursuit of academic excellence and its role as one of the leading educational institutions in South Asia and Asia. The three-day summit also provided a platform for forging strategic

partnerships with some of the world’s most prestigious academic institutions. Collaborations aimed at promoting research initiatives, faculty and student exchanges, and student-led innovations. These partnerships provided new avenues for skill development and academic growth of both students and faculty. Insightful Interactions with Global Leaders was an opportunity for the university representatives to engage in a meaningful discussion

on nuances of education, policy, technology and gain valuable insights into best practices, emerging trends, and the latest technologies that can drive transformation in education. The discussions emphasized that universities must remain agile, adapting their teaching models and research agendas to meet the evolving needs of society, industry, and the environment. The summit concluded with an address by Un Wa Lok, a renowned global thought leader. He spoke about the role of youth engagement in building a sustainable, interconnected world and highlighted the importance of aligning higher education with the United Nations Sustainable Development Goals (SDGs), particularly SDG 4, which focuses on ensuring inclusive, equitable, and quality education for all.

Galgotias University Signs MoU with FDDI to Foster Innovation and Academic Excellence

Galgotias University today announced the signing of a Memorandum of Understanding (MoU) with the Center of Excellence, Footwear Design and Development Institute (FDDI), is a premier institution under the Ministry of Commerce and Industry, Government of India. At a prestigious ceremony held at Vanijya Bhawan, FDDI's Centre of Excellence (CoE) formalized these partnerships with Galgotias University (Uttar Pradesh), Rajalakshmi Engineering College (Chennai), Allure Enterprises (New Delhi), and Careself Services Pvt. Ltd (Fresh Feet) (Uttar Pradesh). This strategic partnership aims to drive collaborative research and provide valuable internship opportunities for Galgotias University students at FDDI, offering hands-on experience in footwear design and development. The MoU also includes joint supervision for PhD programs, enabling scholars to benefit from shared expertise and resources. which align with FDDI's mission to nurture +innovation and promote research in footwear, leather goods, and fashion products. The collaboration aims to facilitate knowledge exchange between faculty and students. The signing ceremony was attended by Dr. Shashibala Singh, Adviser (Galgotias University) ; Priyanka Sharma, Assistant Registrar, (Galgotias University); Dr. Sumeet Kumar Jarangal, IAS, Managing

Director, (FDDI); and Dr. Madhusudan Pal, Director of COE, (FDDI). “This collaboration will enrich the academic journey of our students and promote cutting-edge research, further positioning Galgotias University as a leader in interdisciplinary studies and industry engagement,” said Dr. Shashibala Singh. The partnership is expected to foster

and Hyderabad which is working to improve the quality of education. It is intensively engaged in the work related to quality & certification through its International Testing Centre (ITC) located at Noida and Chennai having physical&chemicaltestinglaboratories. The labs are equipped with state of art testing facilities where testing of leather products, footwear, footwear components, textile products and miscellaneous articles made up of plastics is carried out. Prominent brands such as Adidas, Reebok, Puma, Nike, Renault, Nissan, and IOCL have used their lab for testing their products. It is awarded with prestigious certifications and accreditations such as SATRA Technology Center-UK, ISO 9001 and ISO 14000 Certification and Bureau of Indian Standard Certification.

Galgotias University is constantly working on to provide quality education to all of its students along with providing extra-curricular activities and providing ample opportunities to its students in various fields like technology, medical, computer applications, sports, media, management, etc. Not only does the University provides quality education, but also trains its students to come up with their potentials and polish their skills to soar higher achievements in their lives and make them ready for their future endeavours.

Galgotias University Celebrates Diwali With Utsav 2024

“Utsav 2024” was organized at Galgotias University to celebrate Diwali. The event managed by School of Computer Applications and Technology(SCAT), mirrored the festive cheer of the festival of lights. It brought together students, faculty, and staff members for a day filled with vibrant performances and creative exhibits, celebrating our rich cultural heritage. The event was a resounding success, with faculty members joining students in the festivities and strengthening bonds within the SCAT community. The students were

engaged in a candid conversation with Musician Rohit Chaudhary, where the emerging star shared his inspiring journey and creative influences. The event featured a variety of cultural performances, including classical dance, music, and song performances. A traditional Diwali feast was also organized, with an array of sweets and snacks. Myriad Interactive sessions and fun-filled activities included an intriguing Diwali quiz to remind the audiences of the significance of the festival. The event fostered a spirit of unity and inspiration, leaving attendees

with a renewed sense of creativity and communal pride. “Utsav 2024 was a resounding success, bringing together our diverse community in celebration,” said Prof. (Dr.) Vineeta Khumchandani, Department of ComputerApplicationsandTechnology. Galgotias University is committed to promoting cultural awareness and providing a platform for students to showcase their talents. The university’s events, such as Utsav 2024, reflect its emphasis on fostering a holistic learning environment that goes beyond academics.

Galgotias University Alumni Talks Series 2024: Abhay Pratap Singh Inspire Students

When alumni return to campus, they bring back more than memories they bring insights and experience that inspire current students. Today, we hosted one such alumnus, Abhay Pratap Singh, at the School of Business, Galgotias University. Abhay shared his journey from campus life to the corporate world and then to entrepreneurship, leaving a lasting impact on students and motivating them to dream big and embrace challenges. Abhay spoke about his early days as a student, explaining how his education and interactions at School of Business shaped his future. While classes provided a foundation, he credited teamwork and extracurricular activities for teaching him essential life skills that prepared him for the professional world. After graduation, he entered the corporate sphere, facing the challenge of adapting to a fast-paced environment.

Learning to navigate team dynamics and time management became crucial, and his resilience and openness to feedback helped him thrive. However, a desire to build something meaningful led him to leave corporate life and create his own venture, Smart Meal. Abhay shared insights on building a brand, from market research to establishing a unique identity, emphasizing that branding and marketing are essential for any startup. His story is a testament to the power of vision, hard work, and a willingness to take risks—lessons that continue to

inspire School of Business students. When alumni return to campus, they bring back not only fond memories but also a wealth of real-world insights and experiences. Today, we had the pleasure of hosting one such alumnus, Abhay Pratap Singh, at the School of Business, Galgotias University. His journey from campus to corporate and then from corporate to entrepreneurship left an indelible impact on the students, inspiring them to dream big and to be prepared for both the challenges

and the rewards that lie ahead. Abhay began his talk by sharing his early days as a student at Galgotias University, reflecting on how his education and interactions at the university shaped his outlook. He explained that while the classroom provided him with theoretical knowledge, his real learning came from engaging in projects, teamwork, and extra-curricular activities that taught him essential life skills—skills that would later prove invaluable in his corporate career. Upon graduating, Abhay took his first steps into the corporate world, a phase

that, while exciting, came with its own set of challenges. He described how adapting to the fast-paced environment, understanding team dynamics, and aligning himself with organizational goals were all critical to his success. Despite the initial struggles, Abhay embraced these challenges, honing his skills in time management, problem-solving, and interpersonal communication. His message to the students was clear: success in the corporate world requires resilience, a continuous commitment to learning, and an openness to constructive feedback. However, Abhay’s career was not just a smooth climb up the corporate ladder. After spending several years in the industry, he felt a new calling—a drive to create something of his own. This urge led him to step out of his comfort zone and leave his secure

corporate job to start his own venture: Smart Meal. This bold decision, he shared, was both exhilarating and daunting. His transition from employee to entrepreneur was not an easy one, but his dedication and passion for creating something impactful fueled his determination. Abhay spoke passionately about Smart Meal, a venture that aims to offer healthy, affordable, and tasty meal options. He detailed the steps he took to build a brand from scratch, sharing insights on the importance of market research, branding, and effective marketing.

For Abhay, branding is not merely about logos or catchy slogans; it's about establishing a unique identity and consistently delivering value to customers. He encouraged students to be creative yet strategic when building a brand and to understand the significance of creating a loyal customer base. Abhay emphasized that branding and marketing are crucial for any startup's growth and advised aspiring entrepreneurs to learn the fundamentals of these disciplines. But Abhay's message went beyond business strategies. He reminded students of the importance of having dreams and working towards them with focus and determination. According to him, dreams without actions are merely wishes. His advice to the audience was to invest in skill development, as the skills we acquire today will shape our future success. In the fast-changing world of business and technology, he stressed the need for adaptability and a constant hunger for knowledge.

This inspiring event featured Abhay Pratap Singh, a successful alumnus of School of Business, Galgotias University, as he shared his journey from a young student to a seasoned entrepreneur. His talk delved into the intricacies of navigating the corporate world, the challenges of entrepreneurship, and the importance of lifelong learning.

* The Power of Practical Skills: Abhay emphasized the significance of practical skills, such as teamwork, problem-solving, and time management, gained through extracurricular activities and projects.

* Navigating the Corporate World: He discussed the importance of adaptability, resilience, and a continuous learning mindset in thriving in a corporate setting.

* Embracing Entrepreneurship: Abhay shared his experiences in transitioning from corporate life to entrepreneurship, highlighting the challenges and rewards of starting a business.

The Art of Branding and Marketing: He provided insights into building a strong brand identity, effective marketing strategies, and the importance of understanding customer needs. The Pursuit of Dreams: Abhay encouraged students to dream big, set clear goals, and take action to achieve them. Overall, the event was a resounding success, leaving a lasting impact on the students and inspiring them to strive for excellence in their academic and professional endeavours.

Galgotias University Hosts Historic 12th Institute of Electrical and Electronics Engineers (IEEE) Congress

Galgotias University made history by hosting the prestigious Institute of EE All India Computer Society Student and Young Professional Congress (AICSSYC-2024) from October 17-19, marking the first time the event was held in North India. Organized in association with IIT Kanpur and the IEEE UP Section, it brought together over 400 participants, including students, industry leaders, and academic experts, under the theme “Connecting Leaders, Innovators, and Young Minds.” The conference featured panel discussions and a networking dinner providing an unparalleled platform for knowledge exchange and innovation. A startup pitching session was organized where the top ideas were appreciated by dignitaries including Mr. Aditya Prasad, Investment Head at IIM Lucknow Incubator. Nuanced addresses were delivered by Prof. Hironori Washizaki, President, IEEE Computer Society, on the potential of advanced technology for humanity and Prof. Sri Niwas Singh, Director ABV-IIITM & IEEE Fellow, on the evolving roles in engineering in the era of technology. Industry leaders like Mr. Shivam, Engineering Lead at ZS, and Mr. Nikky Kumar Jha, CEO of Saptkrishi Scientific Pvt. Ltd., provided valuable perspectives on themes like Green Computing and the role of technology in startups. The event concluded with Shri Suneel Galgotia, Chancellor, and Dr. Dhruv Galgotia, CEO, expressing pride and gratitude in student volunteers' efforts and dedication which contributed to the success of the event. They praised the collaborative spirit of the congress and its role in advancing technological innovation. The success of AICSSYC 2024 sets a promising precedent for future events, as Galgotias University continues to empower the next generation of innovators.

Guest Lecture on Insolvency and Bankruptcy Code (IBC)

Guest lecture on the Insolvency and Bankruptcy Code (IBC) provided an in-depth look at India’s corporate insolvency process. It covered the IBC ecosystem, including entities like the Insolvency and Bankruptcy Board (IBBI), Insolvency Agencies (IAs), and Information Utilities (IUs). The role of the National Company Law Tribunal (NCLT) as the Adjudicating Authority in handling insolvency cases was emphasized, helping students understand the legal and procedural backbone of the IBC. In discussing the Corporate Insolvency Resolution Process (CIRP), the

speaker outlined key steps such as the appointment of a Resolution Professional (RP), the authority of the Committee of Creditors (CoC), and the option for fast-track insolvency cases. This process empowers financial creditors and promotes efficient debt recovery, critical insights for students pursuing finance and corporate law. The distribution waterfall for claims was also highlighted, illustrating the priority order for repayments, from insolvency costs to unsecured creditors and shareholders, ensuring fair asset distribution. This session offered practical

insights into the IBC’s role in promoting financial stability and responsible corporate governance. We hope these insights support your academic and professional growth. School of Business pleased to report the successful completion of the recent guest lecture on the Insolvency and Bankruptcy Code (IBC), which offered an in-depth understanding of India’s insolvency framework. The session was highly informative and covered critical components of the IBC ecosystem, the corporate insolvency resolution process, and the prioritization of claims in liquidation proceedings.

Session Highlights

- 1. IBC Ecosystem Structure
 - o The lecture began with an overview of the key entities involved in the IBC ecosystem, including the Insolvency and Bankruptcy Board of India (IBBI), Insolvency Agencies (IAs), Information Utilities (IUs), and Insolvency Professionals (IPs).
 - o The Adjudicating Authority (AA), primarily the National Company Law Tribunal (NCLT), was explained as the

- authority responsible for processing insolvency applications and overseeing the rights and resolutions of creditors.
- o Student Takeaway: This segment provided students with foundational knowledge of the regulatory bodies and roles in the IBC, enhancing their understanding of corporate governance and legal compliance, which are essential in finance, corporate law, and management careers.

- 2. Corporate Insolvency Resolution Process (CIRP)
 - o The CIRP process was detailed, covering essential steps and roles:
 - o Initiating CIRP: Financial and operational creditors, as well as corporate debtors, can initiate the insolvency process.

0 Role of Resolution Professionals (RP): RPs manage the debtor’s operations during the moratorium period and guide the restructuring or liquidation process.

0 Committee of Creditors (CoC): Comprising financial creditors, the CoC has decision-making power to approve or reject resolution plans, with 75% approval needed for major decisions.

0 Fast-Track Insolvency: The IBC allows for a fast-track resolution option, completed within 90 days, for eligible cases.

o Student Takeaway: This section highlighted the decision-making processes and the importance of creditor involvement, providing valuable insights for students interested in corporate restructuring, financial advisory, and insolvency management.

3. Distribution Waterfall for Claims

o A significant part of the lecture focused on the priority distribution of claims in liquidation under Section 53 of the IBC:

0 First Priority: Insolvency resolution and liquidation costs.

0 Second Priority: Secured creditors and workmen’s dues.

0 Third Priority: Unsecured creditors and operational creditors, followed by government dues and equity shareholders.

o The priority structure ensures transparency and fair treatment of all creditors during asset distribution.

o Student Takeaway:

Understanding the hierarchy of claims deepens students’ knowledge of debt structuring and stakeholder rights, critical in fields like corporate finance, asset management, and legal consultancy.

Broader Impact of IBC

- Stability and Economic Growth: The IBC framework has enhanced financial stability, promoting responsible lending and timely debt recovery, which drives economic growth and attracts investment.
- Career Readiness: With IBC knowledge, students are better prepared for careers in finance, law, and corporate restructuring, where familiarity with insolvency processes is increasingly valued.

The guest lecture was a highly engaging session that added practical insights to students’ academic learning. We hope the knowledge gained will serve as a valuable foundation for their future professional pursuits.

Event Outcome

guest lecture on the Insolvency and Bankruptcy Code (IBC) yielded several valuable outcomes, providing students with practical insights into corporate insolvency and financial restructuring in India:

1. Understanding of the IBC Ecosystem:

o Students gained clarity on the IBC framework, including the roles of key institutions like the Insolvency and Bankruptcy Board of India (IBBI),

Insolvency Professionals (IPs), and the National Company Law Tribunal (NCLT). This understanding is foundational for students pursuing careers in finance, law, or corporate governance.

2. Insight into the Corporate Insolvency Resolution Process (CIRP):

o The lecture offered a step-by-step breakdown of the CIRP, covering essential roles such as the Resolution Professional (RP) and the Committee of Creditors (CoC). Understanding the process equips students with knowledge about debt restructuring and creditor rights, vital for future roles in financial and corporate restructuring.

3. Awareness of Priority Waterfall for Claims:

o Students learned about the distribution waterfall for claims under Section 53 of the IBC, which defines the order of asset distribution during liquidation. This concept highlights fairness in repayment and the legal protection of creditor rights.

4. Broader Economic Context:

o The session emphasized how the IBC promotes financial stability, responsible lending, and economic growth, offering students a broader perspective on policy impact in the business world.

processes and implications, preparing them for informed decision-making in their careers.

Mentor Name – Vijay Patil

Department Name – School of Business

On this National Education Day, we take a moment to reflect on the transformative role that education plays in shaping individuals, societies, and nations. Celebrated every year on November 11th, this day marks the birth anniversary of Maulana Abul Kalam Azad, India’s first Education Minister, whose contributions laid the foundation for the modern education system in India. His visionary leadership continues to inspire educators, students, and institutions to prioritize knowledge, innovation, and inclusivity in shaping the future. Maulana Abul Kalam Azad’s efforts led to the establishment of institutions like the Indian Institute of Technology (IIT), the Indian Institute of Management (IIM), and a network of universities that would go on to become key pillars of India’s higher education system.

Accelerators/Incubation - Opportunities For Students & Faculty - Early-Stage Entrepreneurs

Address of Dr. Surinder K Dhingra
A session on 'Accelerators/Incubation - Opportunities for Students & Faculty - Early-Stage Entrepreneurs' was conducted on October 29, 2024 from 10 AM to 11:45 AM in Vivekanand Auditorium. The event was organised by Dr Surinder K Dhingra and was related to SDG-4. The resource person was Mr Kamal Kishor Malhotra – CEO (Chief Executive Officer, Galgotias Incubation Centre For Research Innovation, Startup & Entrepreneurs (GICRISE), Galgotias University, Greater Noida, Uttar Pradesh-203201. The objective of the event was to acquaint the students with the accelerators/incubation facility available for students and faculty in the university. The mentor for the session was Dr. Jagannath Mohanty from the Department of Management. A startup incubator helps you develop and refine high-potential startup ideas. Incubators often operate locally and provide a host of resources such as physical space to access as needed

over a span of one to five years. The benefits of joining an incubator include guidance on developing a product from your idea, help running experiments to prove product-market fit, on-demand access to resources, legal consultation, a workspace shared with other entrepreneurs, networking

and mentorship opportunities and funding in return for a stake in your company. Some examples of incubators are TechNexus, Capital Factory, Seedcamp, Wayra and Harvard Innovation Labs (i-lab) Startup accelerators are short, intensive programs that provide education,

resources and mentorship if you're an early- or mid-stage founder. Often cohort-based, accelerators are more structured than incubators and outline specific tracks to turn your startup into a scalable business. Some offer multiple programs targeted at different industries or venture stages. Whereas incubators provide the environments and resources to help your ideas succeed, accelerators compress years' worth of learning and growth into the span of a few months. The benefits of joining an accelerator include funding in return for a stake in your company, immersive education on fundraising, product development, and growth marketing access to an alumni network and investor connections networking and bonding with your cohort intensive mentorship from industry leaders. Some examples include Techstars, Founder Institute, Y Combinator, AngelPad and Startupbootcamp, The event ended with vote of thanks by Dr Surinder K Dhingra

1.Day 1 of AICSSYC-2024: A Groundbreaking Congress of Innovation and Collaboration

As Steve Jobs said, "Innovation distinguishes between a leader and a follower," and on 22nd October 2024 at the IEEE All India Computer Society Student & Young Professional Congress (AICSSYC) 2024, hosted by Galgotias University in collaboration with Indian Institute of Technology, Kanpur and the IEEE UP Section (India), we saw true leadership in action. Visionaries, innovators, and future leaders united to ignite the spark of creativity, driving the future of technology forward. From the inspiring Inaugural Ceremony to the electrifying Startup Pitching session, Day 1 set the bar high for transformative learning,

networking, and collaboration. This congress echoes the visionary outlook of Shri Suneel Galgotia, Chancellor of Galgotias University, and Dr. Dhruv Galgotia, its dynamic CEO, who champion a globalized, active, and collaborative learning environment. The event perfectly embodied this ethos by bringing academia and industry together to empower the next generation of innovators. The Inaugural Ceremony included the Welcome Address by Prof. (Dr.) Avadhesh Kumar, Pro-Vice Chancellor of Galgotias University, who emphasized how innovation is the engine of progress in our interconnected world. It was followed by Inaugural Addresses by luminaries such as Ms. Melissa Russell, Ms. Michelle Tubb, CAE, Mr. Eric Berkowitz, and Dr. Yogesh Singh Chauhan inspired everyone with their global insights on leadership in technology and innovation. In the Leading sessions on Human-

Centric Designs, Funding Strategies for Startups, and the Role of Ethics in Startups, our speakers armed students with invaluable tools for holistic, ethical innovation. The Startup Pitching session was a high-energy event where young innovators showcased cutting-edge ideas to a prestigious panel of judges. The spirit of mentorship and collaboration echoed Dr. Dhruv Galgotia's vision of academia and industry working hand-in-hand to nurture the leaders of tomorrow. The Tech Panel featured thought-provoking insights on future trends, helping students align their skills with evolving industry needs.

Day 1 concluded with a vibrant Networking Dinner, where new ideas and collaborations blossomed in an informal setting, reinforcing Shri Suneel Galgotia’s vision of creating global platforms for meaningful connections that go beyond the classroom.

2.Galgotias University Hosts an Inspiring Azure Developer Day with Microsoft Experts!

“Knowledge becomes power when it’s put into action.” – A powerful statement that perfectly encapsulates the spirit of the Azure Developer Day hosted by Galgotias University, on October 20th 2024, where the future of technology and innovation came alive for students. This exclusive event, centered around the cutting-edge technologies of cloud computing and artificial intelligence (AI), provided an unparalleled opportunity for students to engage with some of the brightest minds from Microsoft, one of the world’s leading tech giants. Guided by the visionary leadership of Dr. Dhruv Galgotia, CEO of Galgotias University, the event empowered students with hands-on exposure to the tools, platforms, and technologies that are shaping the future of the tech industry. The Azure Developer Day was designed to be a dynamic and interactive event where students could dive deep into the world of Microsoft Azure, Microsoft Copilot, and AI technologies, gaining real-world insights and practical knowledge from industry experts. The event also included demonstrations, workshops, and discussions that highlighted the latest advancements in cloud computing and AI. The Azure Developer Day featured a stellar lineup of Microsoft experts, each bringing a wealth of knowledge from the cutting-edge of cloud and AI technologies. Mr. Saket Kumar, Senior Consultant, Microsoft kicked off the event by introducing students to

the world of cloud computing and the transformative role that Microsoft Azure is playing in businesses, industries, and even daily life. He shared insights on how Azure provides scalable, secure, and cost-effective solutions to a range of challenges, empowering companies and developers to innovate and grow. Following him, Mr. Rajesh Panchal, Senior Consultant, Microsoft took a deep dive into the functionality and power of Azure DevOps. He demonstrated how developers can use Azure to streamline their workflows, deploy applications efficiently, and collaborate seamlessly across teams. His session focused on the best practices for integrating continuous integration and continuous deployment (CI/CD) pipelines, giving students the practical tools they need to manage complex projects with ease. Mr. Amul Kumar, Senior Consultant, Azure AI, a specialist in artificial intelligence, captivated students with a session on AI solutions in Azure. He showcased the latest advancements in machine learning, natural language processing, and AI-powered analytics, all made possible through Microsoft’s cloud platform. Mr. Kumar emphasized how AI can be harnessed to solve real-world problems, from enhancing business efficiency to enabling new forms of innovation in industries ranging from healthcare to finance. The sessions were designed not only to impart technical knowledge but also to spark creativity and critical thinking among the students. By

learning from industry leaders, students gained insights into how emerging technologies are applied in the real world, and how they can leverage these tools to develop innovative solutions. A highlight of the Azure Developer Day was the hands-on experience provided to students. Rather than just theoretical knowledge, students were given the chance to work with actual tools like Microsoft Copilot and Azure AI services, allowing them to experience first-hand how these technologies can be applied to solve real-world challenges. This practical approach allowed students to directly engage with the platforms and start building their own projects, gaining valuable skills that are highly sought after by employers. The event also featured interactive workshops where students could ask questions, explore new features, and get personalized feedback from the Microsoft experts. These workshops were designed to foster a collaborative learning environment, where students could learn from each other’s ideas and experiences while developing their technical proficiency. At the core of the event’s success was the leadership of Dr. Dhruv Galgotia, who has consistently emphasized the importance of preparing students for the demands of the digital age. His commitment to providing students with access to cutting-edge resources, industry experts, and real-world applications of technology is central to the university’s mission.
