

Mou Signed By Galgotias University To Expand Global Collaboration In Pharmacy And Medical Science

Memorandum of Understanding is very crucial and important factor for any institution as it gives them opportunity to collab with some other institutions be it public or private or be it any domestic or international institution. The School of Medical and Allied Sciences, Department of Pharmacy at Galgotias University, India, proudly announces the signing of a Memorandum of Understanding (MoU) with two esteemed international institutions—Amsterdam University Medical Center, Netherlands, and AIMST University, Malaysia. This strategic partnership aims to foster academic exchange, collaborative research, faculty development, and

international training opportunities for students. These MoUs mark a significant step toward advancing global standards in pharmaceutical education and allied

Galgotias University Expands Global Collaborations in Pharmacy and Medical Sciences

health sciences at Galgotias University. With such collaborations between

institutions the boundaries between education systems shatters to authorize seamless knowledge. It makes students upgrade rapidly as through such collaborations we share our insights and research with other institutions and in return gets the same valuable research from their side. As the new systems of education demands such innovative and interactive ways to deal with education. The older pillars of education such as the theoretical and other older ways are crumbling and have already proven unusable and needs to be changed. This is where new age institutions like Galgotias came in to administer such changes and are already performing good on that path.

ICCSAI 2025 Concludes with a Powerful Celebration of Innovation and Global Collaboration

The Delegation Celebrate the Conclusion of the Conference with a Picture with the Management

Galgotias University concluded the 3rd IEEE International Conference on Communication, Security and Artificial Intelligence (ICCSAI 2025) with a memorable valedictory ceremony. The event featured distinguished speakers including Dr. Rajeev Kumar Singh, Professor at IIT BHU and Secretary of IEEE UP Section, Dr. Harivardhagini Subhadra from the 2025 IEEE WIE Committee and CVRCE Hyderabad,

and Dr. Hironori Washizaki, President of IEEE Computer Society 2025 and Professor at Waseda University in Tokyo. The university's leadership was represented by Dr. K Mallikharjuna Babu, Vice Chancellor, Dr. Avadhesh Kumar, Pro Vice Chancellor and Conference General Chair, Dr. Sunita Yadav, Dean, SCSE, and Dr. Vineeta Khemchandani, Dean of SCAT. Dr. Aanjoy Mani Tripathi, Senior Member IEEE and Conference Chair, delivered the vote of thanks to mark the conclusion of the three-day conference. The ceremony also included the announcement of the Code Astraa Hackathon results by the Galgotias Tech Council and featured special sessions on IEEE Women in Engineering initiatives, research collaborations and upskilling opportunities. Participants explored the cutting-edge infrastructure of the AI

Block and experienced the G-SCALE Active Learning Spaces. Dr. B K Panigrahi remarked that Galgotias is not just an Active Learning ecosystem but an Actual Learning ecosystem. Closing messages from Hon'ble Chancellor Shri Suneel Galgotia and a special acknowledgment of the visionary leadership of Dr Dhruv Galgotia, CEO of Galgotias University, reinforced the institution's commitment to academic excellence and global innovation.

The Student Branch of IEEE Galgotias University Appreciated for their Commendable Contributions

2 Intellectual Property Rights: The Foundation to the Knowledge Economy

Galgotias University, School of Allied Health Sciences, is organizing an insightful guest lecture on the critical role of Intellectual Property Rights (IPR) in shaping the knowledge economy. The session will be delivered by Mr. Yasir Abbas Zaidi, Examiner of Patents and Design (Group A Gazetted Officer) at the Department for Promotion of Industry and Internal Trade, Ministry of Commerce

and Industry, Government of India. This lecture aims to deepen understanding of IPR among students and its relevance in driving innovation, protecting creativity, and empowering industries across sectors. Intellectual Property

Rights play a vital role in shaping the knowledge economy. By protecting creativity and inventions, IPR encourages innovation, entrepreneurship, and economic growth. It provides a framework for creators and inventors to safeguard their work, ensuring they reap the benefits of their efforts. IPR empowers industries by providing a level playing field, where creativity and innovation are valued and protected. This encourages businesses to invest in research and development, leading to the creation of new products, services, and processes. IPR is instrumental in driving innovation across various sectors. By granting exclusive rights to creators and inventors, IPR incentivizes research and development, leading to new discoveries and advancements. This, in turn, fuels economic growth, improves living standards, and enhances competitiveness. The guest lecture on IPR at Galgotias University highlighted the critical role of Intellectual Property Rights in shaping the knowledge economy. By deepening students' understanding of IPR, the session aimed to inspire a new generation of innovators, entrepreneurs, and leaders. As the knowledge economy continues to evolve, the importance of IPR will only continue to grow, making it essential for individuals and industries to understand and leverage its potential.

Galgotias University Student Aayush Garg Shines with 99.12 Percentile in CAT, Secures Dream Opportunity

Greater Noida, April 14, 2025 – Aayush Garg, a final-year student at Galgotias University, has become the talk of the town after achieving an impressive 99.12 percentile in the Common Admission Test (CAT), one of India's toughest entrance exams for MBA programs. His stellar performance has earned him a coveted spot at a top-tier business school, marking a significant milestone in his academic journey and inspiring peers across the campus. Aayush, a B.Tech student in Computer Science, always had his sights set on blending technical expertise with management acumen. "I wanted to challenge myself and explore new horizons," he shared with a grin, recalling late-night study sessions and rigorous mock tests. Balancing his engineering coursework with CAT preparation wasn't easy, but Aayush's determination kept him focused. "There were moments I doubted myself, but my family and professors at Galgotias kept pushing me forward," he said. The CAT, conducted annually by the Indian Institutes of Management (IIMs), tests candidates on quantitative ability, verbal skills, and logical reasoning. Scoring in the 99th percentile places Aayush among the top 1% of over 2.9 lakh test-takers this year. His achievement reflects not only personal grit but also the robust academic environment at Galgotias University, known for nurturing well-rounded professionals. Dr. Dhruv Galgotia, CEO of Galgotias University, beamed with pride at the news. "Aayush's success

is a testament to the hard work of our students and the guidance of our faculty. We're thrilled to see him take this leap toward a bright future," he said. Aayush's mentors highlighted his disciplined approach, noting how he sought advice, analysed his weaknesses, and stayed consistent. As Aayush prepares for the next chapter joining a prestigious B-school he remains grounded. "This is just the start. I want to learn, grow, and make a difference," he said, eyes sparkling with ambition. His story has sparked excitement across Galgotias, motivating countless others to dream big and aim high.

3 Galgotias University Concludes 5-Day Workshop on Geosynthetics in Road Infrastructure

5-day workshop on “The applications of Geosynthetics in Road Infrastructure Projects”

A Moment of Pride Captured After a Enriching Learning Experience

5-day workshop on “The applications of Geosynthetics in Road Infrastructure Projects”

When Learning Meets Enthusiasm- A Snapshot of Achievement

The Department of Civil Engineering at Galgotias University successfully conducted a 5-day workshop on “The Applications of Geosynthetics in Road Infrastructure Projects” from 7th to 11th April 2025. The workshop witnessed enthusiastic participation from students, researchers, and industry professionals, offering them hands-on exposure to modern techniques and real-world applications in infrastructure development. Geosynthetics are defined as the products produced from polymeric materials. They are used in various geotechnical engineering projects, soil stabilization and road construction, and are an essential part of man-made construction projects and structures. Generally, the term is used to refer to a wide

range of polymeric products used in construction projects. Geotextiles, geogrids, geonets, geomembrane, geosynthetic clay liners, geofoam, geocells, and geocomposite are the main types of geosynthetics. This impactful academic initiative was organized in collaboration with the CSIR-CRRI Under the National Technical Textiles Mission (NTTM), Ministry of Textiles, Government of India.. The department extends heartfelt appreciation to the expert resource persons, organizing team, and volunteers whose dedicated efforts made this workshop a remarkable success. Galgotias University looks forward to hosting more such knowledge driven programs for the civil engineering community.

Galgotias University hosts Hon’ble MLA Dhirendra Singh for SVYEM smartphone distribution

Galgotias University facilitated the distribution of tablets and smart phones among students under Swami Vivekananda Youth Empowerment Scheme (SVYEM) by Uttar Pradesh State Government. Over 350 Galgotians received electronic devices during a distribution ceremony held on campus. Hon’ble MLA, Shri Dhirendra Singh, graced the ceremony as the chief guest. He was highly impressed by ‘Temi’, the in-house robot deployed at the Galgotias Knowledge Centre. Launched on 25th of December 2021 at Ekana Stadium, Lucknow, the scheme is inspired by Prime Minister Narendra Modi’s vision of a ‘digitally empowered India’. Integration of technology with academics via tools like artificial

intelligence is envisioned as the key to realising this dream. Galgotias University has steadily driven the Prime Minister’s vision forward with its pioneering innovations. It has built a new academic block, dedicated exclusively to data science and artificial Intelligence related research. Mr. Singh also praised the leadership of Chief Minister Yogi Adityanath for rolling out impactful youth-centric schemes across the state. Dr. Dhruv Galgotia, CEO of Galgotias University, later expressed his gratitude on being a part of this revolution. He emphasized on the university’s role in advancing innovation and reaffirmed his support for equipping students to thrive in a rapidly changing future.

Empowering the Youth one step at a time

“Visionaries under one roof”

Greater Noida, April 14, 2025 – At Galgotias University, the future of engineering is taking shape, and it’s woven with geosynthetics. The Department of Civil Engineering recently wrapped up an inspiring five-day workshop, “Applications of Geosynthetics in Road Infrastructure Projects,” held from April 7-11, drawing students, faculty, and industry experts together to explore how these innovative materials can transform society for the better. Geosynthetics—think durable, eco-friendly fabrics and membranes—are revolutionizing infrastructure. They strengthen roads, reduce construction costs, and minimize environmental impact by cutting down on resource-heavy materials like aggregates. At Galgotias, this isn’t just theory; it’s a mission to build smarter, greener solutions for communities. The workshop, hosted by the School of Engineering, showcased practical applications, from stabilizing soil to extending the life of highways,

sparking excitement among attendees about the real-world potential. Dr. A.P. Singh, head of the Civil Engineering Department, shared his enthusiasm: “Our students are learning to solve problems that matter—crumbling

A moment of pride captured during the enriching learning session

roads, flooded cities, unsustainable construction. Geosynthetics offer answers, and we’re training the next generation to lead the charge.” Students like Priya Sharma, a third-year B.Tech student, echoed this sentiment. “I never realized how a simple material

could make such a big difference. Now I’m dreaming of designing roads that last decades,” she said, her eyes lighting up. The event wasn’t just about lectures. Hands-on sessions let participants test geosynthetic materials, while industry veterans shared stories of projects where these innovations saved time and money. Galgotias’ focus on bridging academia and industry shone through, with partnerships fostering research into sustainable infrastructure. Posts on X buzzed with praise for the university’s forward-thinking approach, noting its role in shaping engineers who prioritize societal impact. Galgotias University is proving that engineering isn’t just about building structures—it’s about building a better world. By championing geosynthetics, they’re paving the way for infrastructure that’s tougher, cheaper, and kinder to the planet. As Dr. Singh put it, “This is engineering with heart.”

Galgotias Hosts NCC 4th Rank Promotion and ‘C’ Certificate Distribution Ceremony

Galgotias University proudly organized the 4th Rank Promotion Ceremony and ‘C’ Certificate Distribution for its passing-out NCC cadets. The event was graced by

through three wings: Army, Navy, and Air Force. The National Cadet Corps is headed by a Director General, an Army Officer of the rank of Lieutenant General, who is responsible for the functioning of the National Cadet Corps in the country through the parade. National Cadet Corps Headquarters situated at Delhi. At the State Level, the country has been divided into 16 Directorates covering all States and Union Territories. Each of the State National Cadet Corps Directorate Headquarters controls two to fourteen Group Headquarters. While Directorates are commanded by Brigadiers or their equivalents, the Groups are commanded by Colonels or equivalents from the Air Force and the Navy, NCC Units are commanded by Major/Lieutenant Colonel or their equivalents

Col. Ritesh Pal Leads the March with NCC Cadets, Celebrating their Promotion and Dedication

Col Ritesh Pal, Commanding Officer, 40 UP BN NCC, as the Chief Guest. His inspiring address motivated the cadets to continue their journey with discipline, dedication, and national pride. The ceremony marked a significant milestone in the lives of young cadets, celebrating their achievements and commitment to service. NCC cadets are members of the National Cadet Corps (NCC), a youth organization in India. The NCC aims to nurture discipline, leadership, and patriotic values among young people. It operates

5 COLLABORATIVE SAGA BEGINS WITH THE APPOINTMENT OF TWO VETERAN PROFESSORS

An institution is known for its academic excellence as well as other qualities, but newer modern age demands different innovative ways to help students further their education through collaborative learnings in which professors of different universities, be it domestic or international welcomed in by the institutions to guide the students in sharpening their skills and upgrading them as a whole to make them industry ready by sharing their insightful and useful knowledge which they have inculcated in these long years of teaching and research. Galgotias University is pleased to announce a significant step forward in academic collaboration and global engagement. The School of Law has appointed Dr. Ylli Dautaj, Visiting Associate Professor, and Mr. Brendan Berniker, Visiting Assistant Professor at Penn State Law, Pennsylvania, USA, as Adjunct Assistant Professors (Honorary) in recognition of their outstanding contributions to legal scholarship and research. This esteemed association marks a new chapter in our journey toward excellence in legal education. With their global expertise and academic leadership, Dr. Dautaj and Mr. Berniker will help foster a vibrant academic environment, empowering our faculty, researchers, and students to engage in impactful learning and forward-thinking research. These two personalities commands good amount of respect

in academic field as it can be proven by their extensive and decorated teaching record. School of law is going to reap the benefits from this boost and will score even bigger in their coming endeavours. Such collaborative push is needed for the upliftment of the innovative studies in every field. The hard work of Galgotias university is evident as they are trying to push the same initiative in every field of education.

Strengthening Global Academic Ties: Dr. Ylli Dautaj and Mr. Brendan Berniker Join Galgotias University as Adjunct Faculty

STUDENTS FROM SCHOOL OF LIBERAL EDUCATION VISITS NOBEL LAUREATE KAILASH SATYARTHI'S CHILDREN FOUNDATION

Exposing students directly to the ground level workings of any industry is crucial for any institution to boost their student's learnings as practical knowledge is preferable and more useful than the traditional theoretical one. One such adventure

students received valuable insights into his 44 years legacy which is driven by the power of compassion. A particularly moving moment was when a former child labourer—now an Associate Manager at SMGC—shared his personal journey, leaving a profound and lasting impact on the students. Various social issues remain buried under the scheme of useless issues which can only be furthered through the education of students in this field as they are the beacon of the future, and their involvement is crucial in this matter to empower such issues. Galgotias university keeps organising such insightful and innovative visits in every field of education as it is the need of the time. Any modern institution should lay emphasis on such trivial matter and give them as equal importance as they give to academic fields and Galgotias university can be seen leading the torch in this aspect.

Galgotias Students meet Nobel Peace Laureate Kailash Satyarthi

or initiative took place as students from Galgotias university visited an NGO to study and strengthen their learnings As part of their curriculum for the courses NGO Management and Social Policy & Social Action, students of BA (Hons.) Sociology from the Department of Sociology, School of Liberal Education, Galgotias University, undertook an impactful visit to the Satyarthi Movement for Global Compassion (SMGC) on Thursday, April 3, 2025, in Kalkaji, Delhi. The academic field visit aimed to provide experiential learning about SMGC, which is committed to 'Globalising Compassion'. The delegation of 20 students had the extraordinary opportunity to meet Mr. Satyarthi, a global thought leader known for his relentless fight against child labour and exploitation. The

ग्रेटर नोएडा, 19 अप्रैल: एक राष्ट्र -एक चुनाव आज के भारत की आवश्यकता है । यह भारत के विकास की धुरी साबित होगा । स्वतंत्रता के बाद अपेक्षा थी कि देश तेजी से विकसित होगा, परंतु नीतियों के देरी से क्रियान्वयन और औपनिवेशिक प्रशासनिक प्रणाली के कारण ऐसा नहीं हो सका । लेकिन वर्तमान में यह समय की मांग है कि हम वन नेशन, वन इलेक्शन' के जरिये भारत को विश्व पटल पर अग्रणी भूमिका में लेकर आये । उक्त बातें जेवर वधायक और कार्यक्रम के मुख्य अतिथि धीरेन्द्र सहि ने गलगोटिया विश्वविद्यालय में 19 अप्रैल, 2025 को वन नेशन, वन इलेक्शन' पर आयोजित संगोष्ठी में कही । उन्होंने प्रधानमंत्री नरेन्द्र मोदी के नेतृत्व में भारत की 20वीं सबसे बड़ी अर्थव्यवस्था से 5वीं सबसे बड़ी अर्थव्यवस्था बनने की यात्रा का उल्लेख किया और कहा कि आने वाले वर्षों में भारत तीसरे स्थान पर पहुंच जाएगा । उन्होंने यह भी कहा कि एक साथ पूरे देश में चुनाव होने से चुनावों पर खर्च होने वाली राशि को देश के विकास में लगाया जा सकता है । उन्होंने प्रधानमंत्री द्वारा चुनावी प्रणाली में सुधार के प्रयासों की प्रशंसा करते हुये एक राष्ट्र एक चुनाव को विकास का धुरी बताया । कार्यक्रम में भाजप अल्पसंख्यक सेल के सदस्य हबीब हैदर ने वधायक कहा कि यदि वन नेशन, वन इलेक्शन' को सफलतापूर्वक लागू किया जाए, तो भारत एक ऐसा विकसित देश बन

सकता है, जहां लोग पढ़ाई और नौकरी के लिए विश्व जाने के बजाय भारत आने की इच्छा रखेंगे । संगोष्ठी में पूर्व एमएलसी सतीश शर्मा ने भारत की औपनिवेशिक स्थिति और स्वतंत्रता के बाद उसे पुनः सशक्त बनाने संबंधी चुनौतियों की चर्चा की । उन्होंने कहा कि एक साथ चुनाव होने से सरकार को पूरे पांच वर्षों तक केवल विकास पर ध्यान केंद्रित करने का अवसर मिलेगा और बार-बार चुनावी रणनीति बनाने की आवश्यकता नहीं होगी । इससे सरकार और जनता का पैसा बचेगा और वह विकास में खर्च हो पाएगा । विश्वविद्यालय के सीईओ डॉ. ध्रुव गलगोटिया ने वधि और मीडिया अध्ययन के छात्रों को चर्चा में भाग लेने और अपने विचार वक्ताओं के समक्ष रखने के लिए प्रेरित किया । उन्होंने इस कार्यक्रम पर प्रसन्नता व्यक्त करते हुये कहा कि ऐसे आयोजनों से छात्रों की एलक्टोरल पॉलिटिक्स में दिलचस्पी बढ़ेगी और वे राजनीति में सकारात्मक बदलाव लाने के लिए प्रेरित होंगे । कार्यक्रम को भाजपा जिलाध्यक्ष अभषिक शर्मा ने भी संबोधित किया । गौरतलब है कि यह कार्यक्रम विश्वविद्यालय के नवनर्मित आर्टफिशियल इंटेलिजेंस और डेटा साइंस भवन में सम्पन्न हुआ । इस अवसर पर बड़ी संख्या में छात्र और शिक्षक मौजूद रहे ।

Galgotias Shines at Model United Nations

How can any institution administer the process for maximizing the students output? It is by exposing them towards the practical side of things and organizing workshops is one of the most innovative and interacting ways to equip students with practical skills. Galgotias university keep organising such workshops for the range of academic departments they administer. The Department of Civil Engineering at Galgotias University successfully conducted a 5-day workshop on “The Applications of Geosynthetics in Road Infrastructure Projects” from 7th to 11th April 2025. The workshop witnessed enthusiastic participation from students, researchers, and industry professionals, offering them hands-on exposure to modern techniques and real-world applications in infrastructure development.

This impactful academic initiative was organized in collaboration with the CSIR-CRRI Under the National

Technical Textiles Mission (NTTM), Ministry of Textiles, Government of India. The department extends heartfelt appreciation to the expert resource persons, organizing team, and volunteers whose dedicated efforts

made this workshop a remarkable success. Galgotias University looks forward to hosting more such knowledge-driven programs for the civil engineering community. The narrative is to build a student friendly environment by giving them extraordinary facilities and opportunities to make them efficient for their future endeavours. Students or in genuine, youth are the pillars of any country and the responsibility to shape such young minds falls on the shoulders of the institutions, so they must be very innovative and resilient to cater to the needs of younger generations by providing them with ample number of skills and knowledge. Galgotias university has always supported the imperative for modern age education as it can be reflected through their works in this direction.

“Inquisitiveness meets expertise”

Galgotias University recently organised an impactful industrial visit to Zee News Broadcasting Department on 5th April 2025. Students pursuing diploma course in Electrical Engineering (EE) and Electronics and communication Engineering (ECE) were given this opportunity of exploring real world application of academic syllabi at one of the largest media houses of the country. The technical staff at Zee News conducted live demonstrations on broadcasting equipment, signal modulation techniques, editing software, and studio automation. Students also explored the functions of control rooms and OB vans used in live coverage. The visit provided them with first-hand exposure

to the inner workings of a professional media house, offering practical insights into news production, audio-video processing, satellite communication, and live transmission systems. This experience not only enhanced their understanding of broadcasting technologies but also opened their perspectives on interdisciplinary career opportunities in media and communication fields. Galgotias University believes in bridging the gap between academia and industry in order to mould the youth of today into a professional force of a new India. Industrial visits are a part of how it aims to achieve this ambitious aim.

“Tell me and I forget. Teach me and I remember. Involve me and I learn”

Designing a Greener Tomorrow: Expert Talk on Sustainable Facades at Galgotias University

“A collaboration between pioneers for upskilling”

Galgotias University recently hosted a highly engaging and informative session of ‘HackwithInfy’ for the 2026 graduating batch. A flagship pan-India hackathon of Infosys, it seeks to identify and nurture top programming talent among engineering students. In line with Infosys’ vision of ‘shaping a future with meaningful opportunities for all’, this hackathon served as a platform for students to showcase their coding skills and solve real-world challenges. Mr. Rajeev Aman, Senior Associate Lead, Talent Acquisition, Infosys, visited the campus to deliver an inspiring and informative session that sparked enthusiasm among the students.

The competition assessed participants’ proficiency in programming languages, algorithms, data structures, and software development concepts. From cash prizes to Pre placement opportunities (PPIs) and internships to exclusive projects, a spectrum of rewards awaited the winners. The session offered a deep dive into Infosys’ core values and future opportunities, providing students with insight on their future professional journey. Galgotias university takes pride in securing high quality education and industry readiness for its students via this event.
