Galgotias University's Swift Success: 10 Students Win Apple Challenge

Galgotias University has boosted its global tech presence with 10 students winning the Apple Swift Student Challenge 2025, thanks to its iOS Development Centre's efforts in fostering innovation and creativity. The Apple Swift Student Challenge is a platform for students to showcase their creativity, problem-solving skills, and passion for app development. Participants work with Apple's technology and Swift playgrounds to create projects ranging from simple utilities to complex apps. This year's challenge received thousands of entries from students worldwide, showcasing innovative solutions in various categories like education, health, productivity, and sustainability.

Galgotias students created innovative projects in various fields, including education, health and wellness, productivity and sustainability. "Tide Explorer" visualized the moon's gravitational pull, while "AlgoMaze"

"These are the winners of the challenge"

transformed algorithm learning into an interactive maze. "Stress Relief Companion" provided relaxation tools, while "Svaraa" raised awareness about reproductive health conditions. "MotionEase" offered real-time motion sickness relief. "GitTales" simplified

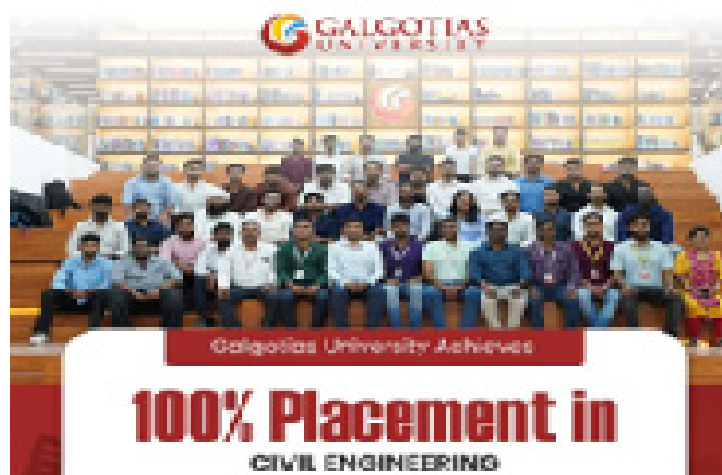

Git commands, while "CropCare" empowered farmers with digital tools. Galgotias University has won 10 out of 10 Apple Swift Student Challenge 2025, showcasing its commitment to innovation and creativity. The university's iOS Development Centre has nurtured students' skills, enabling them to create innovative projects. The recognition from Apple highlights the university's position as a leader in technological

education. As students continue to build impactful solutions, the university is poised to contribute significantly to the global tech landscape. Galgotias University's success in the challenge demonstrates its potential to make a lasting impact in the technology industry.

100 on 100 on Placement Report Card, Galgotians uphold legacy

Exemplifying the excellence of education and success of 'active learning' curriculum at Galgotias University, the students from Civil Engineering program have secured 100% placement in session 2025. 98% of students are now placed in top companies and 2% have successfully qualified GATE 2025.

The raw potential and unique talent of each student is shaped into a skillset that sets each Galgotian apart from the pulsating crowds of candidates in the job market. According to an estimation by Royal Institution of Chartered Surveyors, RICS, a workforce gap of approximately 45 million employees exists between

"Promising success with each lecture at Galgotias supply and demand in Civil Engineering. Galgotians qualifying for eminent roles in top corporations in such global scenario shows how they are surfing on this wave of job demands with their skills. This success is also a testament to the university's strong industry connections and merit of hands-on approach to education.

Established in 2011, with an aim of redefining the domain of higher education in India, Galgotias University has come a long way. Evolving with time and socio-economic trends, the University today houses a plethora of cutting-edge facilities and an 'active learning' integrated curriculum to match the needs of 21st century education. After more than 10 decades of genesis, it remains committed to bridging the knowledge gap between theoretical principles and technological advancements, fostering a new generation of professionals and technologists who can navigate the complexities of the digital age.

2 Galgotias Shines at National Yogasana Championship

Galgotian Sumit Kumar Gangwar, brought pride to the institution by winning three medals at the National Yogasana Championship. Organized by the Youth Games Development Federation of India (YGDFI), the event was held in Mapusa, Goa. The prodigy clinched Gold in the Artistic Solo event, Silver in the Artistic Pair event, and Gold in the Traditional Yogasana category. A BBA student specialising in Digital Marketing, Sumit has achieved an illustrious achievement that defines his personality and reflects the progressive direction in which the well guided youth of India is being led by visionary government initiatives. Yogic practices of ancient India have proven to be the most effective antidote for the detrimental effects of pollution on human health. This makes them all the more essential for the youth for it is the heartbeat of a healthy nation. In this era of materialism and

misguidance there is an urgent need to not only protect and guide but to reinforce and strengthen the youth to ensure a strong nation tomorrow.

“Yoga is a light which once lit will not be dim”
-B.K.S Iyengar

Galgotias University with its experienced faculty ensures that the young talents get the best guidance and are able to optimize every opportunity that could fulfil their creative potential. Equipped with avant-grade sports

facilities including basketball courts, archery fields etc and mental health refuge though a dedicated ‘wellness Lounge’, the University ensures that each student has a chance to explore their potential and callings. With the world progressing into the 21st century, the purpose of education has expanded beyond aiding in securing a job. It includes development of a tendency of lifelong learning and ability of an individual to ensure holistic well-being. Galgotias University remains committed to ensuring dispersion of such education to the future of the nation-the youth. Sumit’s achievements by no means end with this, he has also been selected to represent India at the upcoming International Championship. As this rising star progresses on his ascend, the University stands by his side, supporting his ambitions.

Galgotias Ascends QS World University Rankings, Marks Progression In Academic Excellence

Galgotias University has been ranked 15th among India’s top private universities and 43rd among all Indian institutions in the QS World University Rankings 2026. Featured prominently in The Times of India, this achievement stands as a testament of Galgotia’s excellence in the field of education.

“Inching closer to dominance in higher education rank by rank”

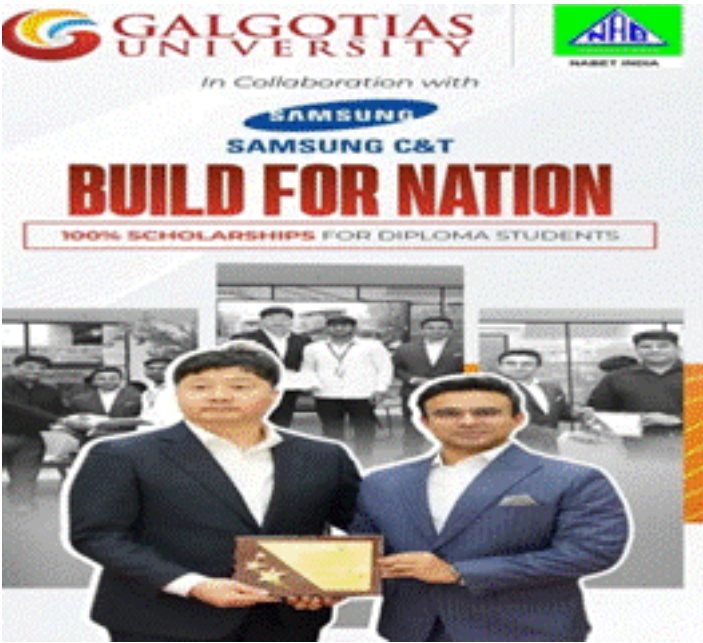

Quacquarelli Symonds (QS), is a higher education analytics firm, that ranks the world’s top universities against a set

of comprehensive criteria that evaluate the impact of the educational institutions holistically. These include five major dimensions including research and discovery, employability and outcomes, global engagement, learning experiences and sustainability. Each of these club a series of indicators to form a framework for evaluation. It includes factors like academic reputation, Faculty-Student ratio, citations per Faculty, Internationalisation and additional factors like research network collaborations and the number of inbound and outbound students. Established in 2011 with a vision to redefine the domain of higher education in India, Galgotias University stands proud with global recognition of its endeavours. “With a 100% placement record for the last four years supported by multinational firms like Accenture, Hewitt, IBM, Infosys, Nokia, and Samsung,

Galgotias Institutions have earned the respect of top performers in the industry”, writes QS on their website in appreciation of the University. Expressing his joy over the fruitfulness of persistent efforts, Dr, Dhruv Galgotia, CEO, Galgotias University stated, “This is a proud moment for Galgotias University. Breaking into the QS Rankings is a reflection of our commitment to world-class education, cutting-edge research, and holistic development of our students. We dedicate this achievement to our outstanding faculty, students, and partners who continue to push the boundaries of excellence.” This year’s ranking is the largest ever, featuring over 1,501 universities across 105 higher education systems out of which Galgotias has carved a notable place. At the heart of this achievement lies the Galgotias Student Centric Learning Ecosystem

(GSCALE) project. Implemented in collaboration with Nanyang Technological University, Singapore it aims to foster critical thinking, interdisciplinary learning in a student centric ecosystem. The ‘active learning module’ under GSCALE is the corner stone of Galgotias’ rapid development as an institution that fosters the youth into a workforce of future ready professionals. This combined with the legacy of providing state of the art facilities for research and skill development results in an institution that remains committed to transforming the nation with a skilled youthful workforce. This recognition has highlighted the growing national and global impact of Galgotias University in higher education and innovation. As the university stands proud of its achievement it continues to pursue to nurture lifelong learning and industry readiness amongst its students.

3 Empowering Futures with 100% Scholarship | Galgotias x Samsung C&T Launch ‘Build for Nation’ Project

Galgotias University and Samsung C&T Launch ‘Build for Nation’ Project

Galgotias University, in collaboration with Samsung C&T and NABET India, proudly launches Project Build for Nation, offering 100% scholarship in tuition fees to students admitted in the 2025–2026 academic session under the Diploma (Lateral Entry) programs in Mechanical, Civil, and Electrical Engineering. Samsung C&T is a South Korean construction and engineering company. It was founded in 1938 as the first Samsung Company and was initially involved in construction and overseas

trading operations. Since 1995, it has largely focused on global engineering and construction projects, trade and investments, fashion and real estate. Samsung C&T aims to empower people for a better future by offering equal educational opportunities. Financial aid, educational materials, and mentorship programs are all part of this transformative education sponsorship initiative, designed to support deserving students and promote technical excellence.

Galgotias Goes Global at Arab Media Summit 2025

Galgotias University recently participated in the Arab Media Summit 2025. The three-day event hosted 8000 media professionals from the UAE and across the world. The event was organised by Dubai Press Club and gathered top industry leaders to discuss the evolving landscape of media and technology. Invited by the United Arab Emirates University, Galgotias was represented by Dr. Tasha Singh Parihar, Professor, School of Media and Communication Studies.

Prof. Tasha Singh Parihar representing Galgotias University at the summit

Galgotias University contributed to a global dialogue on “How to Create a Sustainable Impact in Media” and was recognized for its representation with certificates of excellence and appreciation. This is a significant achievement in securing a global recognition for Galgotias University’s intellectual biosphere as The Arab Media Summit serves not just as a platform for dialogue but as an active agent of revolution in the field of media.

Galgotias Amplifies Socio-Academic Impact with Strategic Collaborations.

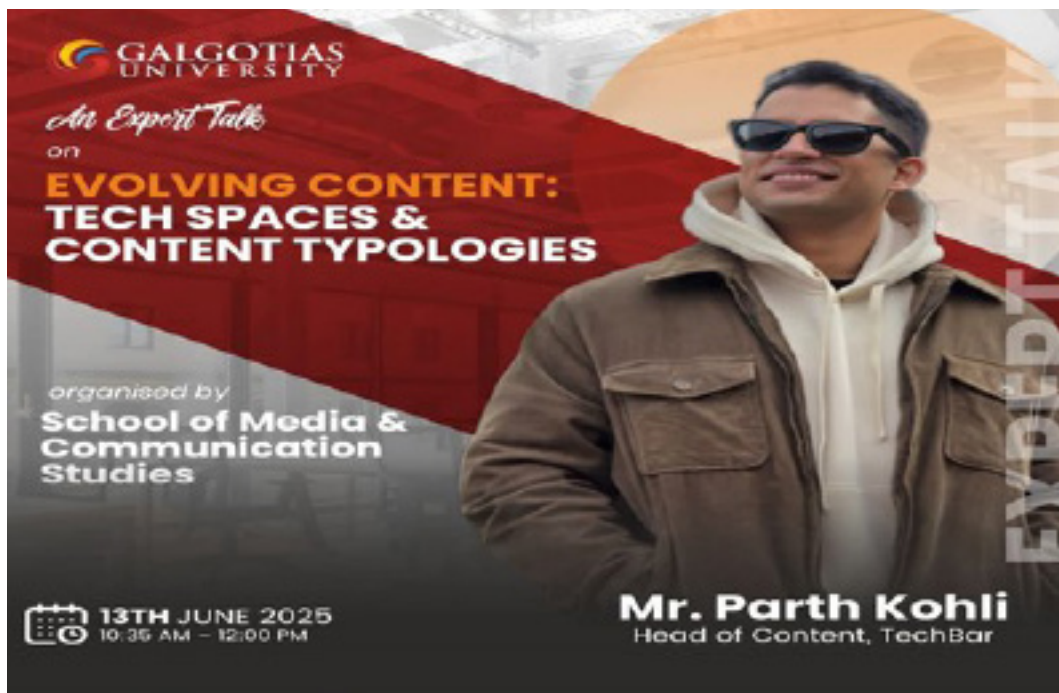

Prof. (Dr.) K. Mallikharjuna Babu with T.I.M.E. representative

The School of Commerce (SFC) at Galgotias University recently signed strategic Memorandums of Understanding (MOUs) with T.I.M.E. Greater Noida and TRY NGO Charitable Organization, marking a significant step toward enriching student learning and career readiness. The Triumphant Institute of Management Education

or T.I.M.E. is a leading test-prep institute in India, established in 1992. Headquartered in Hyderabad, it offers quality coaching for various competitive exams from CLAT to SSC. It is guided by principles of affordability, student welfare and a promise of quality education. This aligns perfectly with the vision and mission of Galgotias University which aims to make world class higher education accessible to aspiring students. While seeking excellence in innovation and skill building, the University also encourages humanitarian endeavour wholeheartedly. This has led to the collaboration with TRY NGO. The

latter being an institution empowering marginalized communities across India through a holistic approach, focusing on education, healthcare, and skill training. TRY NGO envisions a future where communities are empowered, self-sufficient, and contribute meaningfully to society. A collaboration with them would enable Galgotians to gain humane experience that would sensitise them to real world issues and enable efficient problem solving. These partnerships are forged to provide students with professional training, real-world exposure, and opportunities for community engagement. The initiative reflects the commitment of SFC to foster understanding of dynamic Business environment and comprehension of its implications through innovative pedagogical approaches.

Galgotias University is proud to host an Expert Talk on “Evolving Content: Tech Spaces & Content Typologies” by Mr. Parth Kohli, Head of Content at TechBar. Organised

by the School of Media & Communication Studies, the session will offer students valuable insights into how technology is reshaping storytelling, formats, and audience engagement in the digital era. Mr. Kohli shared valuable insights on evolving content formats, platform-specific storytelling, and how AI, VR, and algorithm-driven trends are redefining audience interaction and media strategies. Drawing from his extensive industry experience, he emphasized the growing need for multi-disciplinary skills, creative agility and tech-savvies in the content in industry. The talk concluded with an interactive Q&A session where students explored career paths in digital content creation, brand strategy, and immersive media. This expert session reflects Galgotias University's commitment to preparing its students for the fast-evolving digital landscape by bringing industry leaders directly into the academic environment.

Wipro Centre for Excellence established at Galgotias University

In a visionary alliance, Wipro and Galgotias University have signed a landmark MoU to launch a Centre of Excellence on campus, marking a major step forward in Industry-Academia collaboration.

The partnership was formalized in the presence of Mr. Vikas Gupta, Senior Vice President and Global Head, Mr. PVS Prakash, Director – NexGen COEs, Talent Next, and Ms. Shweta Choudhary, Senior Manager, Enterprise Applications, Wipro Enterprise Futuring. The Centre aims to equip students with advanced technical training and real-world exposure, effectively bridging the gap between academics and employment. In this process however it aims to keep the natural creativity and spirit for innovation alive amongst the students who will find nurturing here. Wipro believes in “creating a more

connected workforce, where every individual feels integral to our success, is genuinely seen and valued, and is empowered to share their talents and authentic selves within their work communities.” This perspective aligns with the vision of Dr. Dhruv Galgotia, CEO, Galgotias University to inculcate the feeling of self-sufficiency through upskilling and encourage team-based problem solving amongst students. With collaborations like this, Galgotias University perseveres to drive the mission of nurturing future-ready professionals through strategic industry partnerships and experiential learning.

Dr. Manoj Malik Leads Spinal Manipulation Workshop at Galgotias University

The Department of Physiotherapy School of Allied Health Sciences Galgotias University is organizing a hands-on workshop on “Spinal Alignment Using Manipulations” on 8th June 2025. The session will be led by Dr. Manoj Malik (PT), PhD in Physiotherapy and Assistant Professor, Department of Physiotherapy, Guru Jambheshwar University of Science and Technology, Hisar. This workshop is designed to provide practical insights into spinal alignment techniques through clinical manipulations, enhancing students’ applied skills and understanding

s, The workshop was conducted by

Dr. Manoj Malik (PT), a PhD holder in Physiotherapy and Assistant Professor at Guru Jambheshwar University of Science and Technology, Hisar. Renowned for his expertise in manual therapy, Dr. Malik guided students through practical demonstrations of spinal alignment techniques and clinical manipulations, crucial for managing musculoskeletal disorders. The session provided in-depth exposure to real-world applications of spinal adjustments, fostering a better understanding of posture correction, joint mobility, and patient-centered physiotherapeutic care.

5 Creativity meets Technology with ‘Sketchup’ at this Engineering workshop

“Creative flair guided by expert tutelage”

Students from Galgotias Polytechnic recently participated in an engaging Workshop on Google SketchUp. The hands-on Session was organised under the guidance of expert faculty from the Department of Civil Engineering for its students. The

session introduced the latter to nuances of real-world application of engineering theories. SketchUp is a premier 3D design software by Google that makes 3D modelling & drawing accessible. It and empowers individuals with a robust toolset to design their imagination into reality. Fundamentals of 3D modelling and real-time digital design were explored in depth, offering practical exposure to tools widely used in the architecture and construction industry. With a vision to “impart quality education and mould technically sound,

ethically responsible professionals in the field of Civil Engineering”, the department of Civil Engineering at Galgotias, strives to engage students in such sessions. This aligns with the umbrella mission of the institution to provide state-of the art infrastructure to aid in domain research and to mould the youth into an industry-ready workforce. This dynamic learning experience fostered creativity, technical confidence, and a deeper understanding of digital design processes—preparing students for real-world applications and industry innovation.

School of Law Organizes Workshop on Legal Research Methodology

The School of Law, Galgotias University, successfully conducted a Workshop on Legal Research Methodology on 28th May 2025. The day-long academic gathering featured three power-packed sessions delivered by distinguished legal scholars from premier institutions. The workshop delved into evolving research paradigms, methodological rigor, and practical frameworks essential for impactful legal scholarship. Legal research is a form of scientific

inquiry focused on law, it involves identifying a legal problem, collecting and analyzing authoritative sources (statutes, cases, regulations, scholarly commentary) and drawing conclusions in a logical manner. All research, including legal research, requires a sound design for investigation, a clear plan for how to gather and evaluate data or sources and how to derive meaning from them. Legal research methodology thus provides this plan, ensuring that the researcher proceeds in an organized, objective and rigorous way to answer the question at hand. It is often said that legal research is both a science and an art, since it is a science in terms of methodical precision and an art in the creativity which is required to interpret laws and

apply them to complex fact patterns. With enthusiastic participation

Felicitating the Esteemed Guests and Venerated Scholars

Workshop on Legal Research Methodology in Progress

from LL.M. and Ph.D. scholars, the event proved to be a deeply engaging and intellectually enriching experience for all.

Galgotias University Collaborates with Tata Technologies

Tata Technologies’ vision is to **EngineeringABetterWorld**. This vision extends to creating a better world for all stakeholders, including customers, employees, communities, and shareholders. They aim to achieve this by enhancing engineering expertise and innovation among our next generation of engineers. The collaboration with Galgotias University will ensure effective fulfilment of this vision. “At Tata Technologies, we are passionate about enabling future engineers with industry-aligned skills. Our collaboration with Galgotias University, known for its innovation-led curriculum and future-ready ecosystem, ensures students are equipped for success in the high-growth engineering sector.” said Mr. Pawan Bhageria, Global President – HR, IT & Education, Tata Technologies.

Mr. Pawan Bhageria Expresses elation on Collaboration

Felicitation of Mr. Sanjay Kumar

Galgotias University was honored to host Mr. Sanjay Kumar, Executive Director of the Leather Sector Skill Council (LSSC) under the Ministry of Skill Development & Entrepreneurship. The Leather Sector Skill Council (LSSC) is a non-profit organization dedicated to meet the demand for skilled workforce

in the leather industry in India. LSSC was set up in 2012 as one of the key sector skill councils approved by National Skill Development Corporation (NSDC). During his visit, he explored transformative initiatives led by CEO Dr. Dhruv Galgotia, including plans for short-term courses under PMKVY 4.0 and Apprenticeship Embedded Degree Programs. PMKVY is a flagship scheme for skill certification, being launched to help Indian youth take up industry-relevant skill training to get better livelihoods. Components of this scheme include Short Term Training, Special Projects and Recognition of Prior Learning. An Apprenticeship Embedded Degree Program (AEDP) combines traditional degree programs with structured industry apprenticeships, aiming to bridge the gap between academic learning and industry needs. Mr. Kumar toured the Active Learning Classrooms and witnessed the G-SCALE model in action, along with a visit to the Apple iOS Development Centre of Excellence. He expressed his appreciation for the University’s pioneering efforts in advancing skill-based education.

Galgotias University Hosts Cutting Edge Anatomy Exhibition

Galgotias University is set to host a groundbreaking Anatomy and Biomechanics Exhibition, focusing on automation. The event will bring together experts, researchers, and students to share knowledge and discoveries in anatomy and biomechanics. The exhibition will provide a comprehensive platform for attendees to explore the latest developments, technologies, and applications in these fields. Galgotias University’s commitment to scientific inquiry, innovation, and collaboration is demonstrated through this event. The exhibition aims to foster a deeper of human anatomy and understanding biomechanics, highlighting the potential applications of automation in these fields. The Anatomy and Biomechanics Exhibition at Galgotias University will feature interactive displays, expert talks, hands-on activities, and a focus on automation and technology. The exhibition aims to promote scientific temper among students and professionals, facilitate interdisciplinary collaboration, and promote community engagement. It will feature interactive displays, expert talks, hands-on activities, and workshops, showcasing the latest advancements in anatomy and biomechanics. Live demonstrations and experiments will showcase the latest techniques and technologies in the field, while Q&A sessions will allow attendees to interact with experts and ask questions. The exhibition will also offer networking opportunities, allowing attendees to connect with experts, researchers, and professionals in the field. The event aims to foster scientific temper, drive innovation, and promote inclusivity and diversity in the field. The Anatomy and Biomechanics Exhibition at Galgotias University,

focusing on automation, is set to be a significant event that will showcase the latest advancements in the field. The event will bring together experts, researchers, and students, promoting knowledge sharing, collaboration, and networking. The exhibition will feature interactive displays, expert talks, hands-on activities, and live demonstrations, foster scientific temper and promote interdisciplinary collaboration. Galgotias University’s commitment to scientific inquiry and innovation will make a significant impact on the field, inspiring future generations and contributing to advancing human anatomy and biomechanics understanding, driving innovation, and improving healthcare outcomes.

“Explore the fascinating world of anatomy and biomechanics at anatomy motion”

7 Galgotian Shubham Yadav Aces ERASMUS program

Shubham Yadav, a student from the Galgotias School of Nursing (GSON), has successfully completed a fully funded 3-month international training under

“Galgotian soars high in the sky of academics”

the esteemed ERASMUS Program at the International Hellenic University, Greece. Pursuing B.Sc in nursing he was in his seventh semester when he cracked this opportunity to expand the horizons of his academic journey. A European Union initiative, the ERASMUS program provides funding to various organisations and individuals to facilitate mobility, cooperation and exchange in higher education, vocational training and sports etc. The International Hellenic University is one of such organisation that welcome students and staff under the program. Excelling in the domains of health sciences, geosciences, social service, engineering etc it became

the perfect catalyst for a bright student like Shubham who possesses an innate sense of excellence and zeal for humanitarian pursuit. At Galgotias University, students are empowered to accomplish academic goals that would accelerate their upskilling journey and mould them into an expert workforce of tomorrow. GSON, aligns its efforts to match this vision of the University by imparting value-based education through research and innovation. This rhythm has resulted in a Symphony like Shubham who is a proud testament to the global opportunities and academic excellence fostered at Galgotias University, especially in the field of healthcare education.

Galgotians secure training internship at Jaypee Greens Golf Spa and Resort

Students from the school of Hospitality (SOHT) at Galgotias University have been selected by Jaypee Greens Golf & Spa Resort, Greater Noida for Industrial Training. In line with the new education policy, industrial training is mandatory for students. This ensures that the next generation workforce is industry ready. Proving their excellence and professional potential, 15 Galgotians were selected by the reputed firm with a hospitality empire stretching across north India. Their training is expected to begin on 1st August 2025 and continue until 5th January 2026, providing them with valuable hands-on experience in the hospitality industry. This induction exemplifies the commitment of SOHT at Galgotias University to establish collaborations for excellence in the hospitality & tourism profession. Jaypee Greens Golf & Spa Resort is an ultra- luxurious hospitality establishment in the region with 170 premium rooms, seven fine dining experiences, state-of the art spa along with a banquet and conference facility with a 30-1400 seating capacity. Such combination of features

makes it the perfect arena for aspiring hospitality leaders to hone their skills. As the world evolves to foster high-stake professional competition and increased recognition of industry ready professionals, Galgotias University stands determined to bridge the gap between academia and industry to empower students for a successful future.

“Leaders of tomorrow with Domain experts”

Galgotians “Engage” with Top Industry Experts to seize professional success

“Academia meets Industry at Galgotias University”

Galgotias University successfully hosted the “Engage Program” bringing industry experts and aspiring professionals face to face. The event aimed to empower pre-final year

students for their transition from campus to the corporate world. Mr. Gokulakannan Narasimhan, Senior Manager, Global Emerging Talent at ServiceNow and Mr. Manroop Singh, Head of Talent Acquisition Ops and University Relations at Xperi Inc. shared industry insights as guest speakers. Their informative discourse provided the students with a perspective on the skills, mindset, and professional readiness needed to succeed in the job jungle. Imbued with motivation their speech provided essential clarity on how to pursue a successful career path. With organisation of such events, Galgotias University remains committed to its mission of collaborating with industry for achieving excellence in research, consultancy and entrepreneurship development.
