A Celebration of Academic Milestones: Galgotias Hosts Shri Piyush Goyal for its 9th Convocation

Galgotias University's 9th Convocation was elevated by the inspiring presence of Shri Piyush Goyal, Hon'ble Union Minister of Commerce & Industry, who joined as Chief Guest to celebrate the achievements of 5,123 graduates. Far beyond a ceremonial role, Shri Goyal's visit reflected his genuine belief in education as a catalyst for national progress. Touring the AI Knowledge Centre and iOS Development Centre, he lauded Galgotias University's commitment to innovation, research, and technological advancement, underscoring India's growing leadership in the digital economy. In his convocation address, Shri Goyal called upon graduates to embrace their role as architects of a self-reliant

India. He urged them to apply their talents with integrity, compassion, and responsibility, transforming

An Enriching discussion between Honourable Union Minister Mr. Piyush Goyal, Honourable Chancellor Mr. Suneel Galgotia and CEO Dr. Dhruv Galgotia.

knowledge into action that uplifts communities and strengthens the nation. During an exchange with Dr. Dhruv

Galgotia, CEO of Galgotias University, Shri Goyal shared a powerful message: education must be accessible to every deserving student, regardless of financial barriers. Inspired by his counsel, Dr. Dhruv Galgotia reaffirmed the university's pledge to expand scholarships and ensure inclusive opportunities for all learners. The 9th Convocation will be remembered not only as a celebration of academic milestones but as a day shaped by the vision and wisdom of a leader committed to empowering India's next generation. Shri Piyush Goyal's presence left an indelible mark on the Galgotias community, reinforcing its mission to nurture globally responsible, innovative, and ethical leaders.

Galgotias University in synergy with ICFA for Agro research Revolution

Galgotias University has officially signed a Memorandum of Understanding (MoU) with ICFA- Indian Chamber of Food and Agriculture, fulfilling its mission of collaborating with industry experts to revolutionise academia. ICFA is the apex body dedicated to advancing policy, development, and global engagement in India's food and agriculture sectors. Graced by Mr. Syed Areesh Hussain, Deputy General Manager, ICFA, alongside Dr. Dhruv Galgotia, CEO, Galgotias University, this signing marks the beginning of a visionary partnership. One that would not only open doors to a spectrum of opportunities for the students but also contribute steadily towards futuristic research in the food and agro domain with skilled youth workforce. ICFA works with national and international stakeholders to ensure that agricultural policies support growth, sustainability, and inclusivity. It is a known entity for proposing policy change and improvement

through research backed proposals. This makes it the perfect learning partner for students at Galgotias university where 'active learning' education

"A partnership of commitment and revolution"

module encourages practical application alongside theoretical knowledge. As the professional landscape is evolving rapidly, such industrial collaborations prepare the students for the professional arena.

This collaboration aims to drive innovation, skill development, and international collaboration in agriculture and agribusiness education and promises a future of infinite possibilities. It aligns with the visionary leadership of both Shri Suresh Prabhu, Chairman, ICFA, to position India's food and agriculture sector globally and Dr. Dhruv Galgotia, who wishes to empower the nation with a skilled youth workforce. Through this partnership, Galgotias University and ICFA will jointly promote education and industry integration in agriculture, agribusiness, and rural management by offering students live projects, internships, industry events, and global exchange opportunities. The MoU paves the way for a multi-dimensional collaboration strengthening Galgotias University's position as a catalyst for innovation, leadership, and sustainable growth in agriculture and allied sectors.

PhD Scholars Take A Leap Forward At G-MRDC's Thesis Writing Workshop

(The event featured expert talks, interactive sessions, and practical guidance aimed at enhancing research writing skills among doctoral scholars.)

In a significant step towards strengthening research capabilities among doctoral students, the Galgotias Multidisciplinary Research & Development Cell (G-MRDC) organized a oneday intensive workshop titled “From Concept to Completion: Mastering Synopsis and Thesis Writing” on 25th April 2025. The workshop aimed to guide PhD scholars through the essential phases of academic writing and research development, fostering a culture of scholarly rigor and innovation. The event witnessed enthusiastic participation from PhD scholars representing a variety of disciplines, all eager to refine their research writing skills. The workshop provided a rare opportunity for scholars to engage with seasoned experts and gain clarity on the multifaceted process of research—from formulating a concept to compiling a well-structured thesis. The session was inaugurated by Dr. Shashi Bala Singh, Former Director General at DRDO and Advisor to the Chancellor, Galgotias University. In her keynote address, Dr. Singh highlighted the importance of Translational Research—emphasizing the need for

research outcomes to be meaningful, applicable, and impactful in solving real-world problems. Her address inspired scholars to approach their research with a vision that bridges academia and industry. Following this, Dr. K. P. Mishra, Scientist F at Defence Institute of Physiology and Allied Sciences (DIPAS), DRDO, delivered a detailed session on research methodology, academic referencing, and ethical considerations. With years of experience in scientific research, Dr. Mishra provided scholars with a structured approach to navigating complex research processes and ensuring academic integrity in their work. A key highlight of the workshop was the hands-on session, which allowed scholars to apply the theoretical knowledge gained during the day. Participants worked on refining their research proposals, practiced proper citation techniques, and received expert feedback on structuring their theses. This interactive segment proved to be especially beneficial, helping scholars transform abstract concepts into actionable plans. Throughout the day, the workshop fostered a vibrant academic atmosphere, encouraging dialogue, collaboration, and peer learning. Scholars expressed appreciation for the practical insights and mentorship offered, acknowledging that the workshop had significantly enhanced their understanding of research writing. Speaking on the success of the event, the G-MRDC coordinators remarked, “Our goal is to create a nurturing ecosystem for research at Galgotias University. This workshop is part of our ongoing commitment to providing scholars with the skills and support needed to thrive in the academic world.” As Galgotias University continues to build its reputation as a hub for cutting-edge research and innovation, initiatives like this workshop underscore the institution’s dedication to academic excellence and scholarly growth.

Unpacking Power and Privilege: Galgotias University Hosts Lecture on Gender Intersectionality

Galgotias University is proud to host a thought-provoking guest lecture organized by the Department of Legal Studies, School of Law, on the theme “Gender in Context: Mapping Intersectionality Across Structures of Power.” We are honoured to welcome Dr. Sujata, Professor at the University of Delhi, whose extensive research and scholarship in gender studies and socio-legal structures continue to influence critical

discourse nationwide. Dr. Sujata examined the intersections of gender with systems of power, privilege, and inequality. Drawing from both academic research and real-world socio-legal challenges, the lecture encouraged students to critically analyze how legal frameworks interact with issues of identity and justice. The session will offer deep insights into how gender intersects with systems of power, privilege, and inequality—equipping students with a multidimensional understanding of law and society. The session provided law students with a multidimensional perspective on the role of gender in legal contexts, reinforcing Galgotias University’s commitment to inclusive, socially aware legal education. The interactive Q&A session that followed allowed students to engage directly with Dr. Sujata, reflecting their deep curiosity about the social implications of legal practice. The event was part of the School of Law’s ongoing efforts to expose students to diverse voices and contemporary issues shaping legal thought and societal change.

3 Alumni Spotlight: Shubham Sinha’s Path to Global IT Excellence

“Galgotias University has embraced a forward-looking approach to cater to the needs of working professionals and students by incorporating innovative learning methodologies.” stated Dr. Dhruv Galgotia in an interview with Shiksha.com. His claim is proudly reinforced by Shubham Sinha’s exceptional professional career. An alumnus from the class of 2015 in B.Tech – Computer Science & Engineering (Cloud Computing & Virtualization) at Galgotias University. His career has been testament to determination, domain expertise and leadership in the field of network engineering. Currently serving as a Subject Matter Expert – Network Engineering at Tata Consultancy Services (TCS), Shubham has not just secured accomplishments and professional fame for himself but has brought his alma mater much glory. Galgotias University has always believed in preparing a next generation workforce through upskilling the youth with visionary educational courses. It provided state of the art discourse on futuristic subjects like cloud computing and virtualization

back in 2015 when digital technologies were in their fetal stage. Provision of extensive computing resources, well designed curricula, fully flexible credit system and specialized equipment for individual research efforts enable students at Galgotias University to acquire relevant knowledge and skills while providing flexibility in

Galgotias alumnus shines bright”

choosing their courses of interest. It is this accessibility of technology and resources both tangible and intangible, that empowers Galgotians to ace their professional careers on the prowess of skills and knowledge. Shubham had held responsibilities

of numerous other roles in reputed organisation before joining TCS. He was the Tech Lead for Data Centre Infrastructure at Cognizant and Network Administrator at Softenger. Committed towards keeping pace with the ever-evolving technology and industrial avenues of the 21st century, Galgotias University has established a Centre for Data Science & Analytics, fully equipped with futuristic resources embedded in an ‘active learning’ ecosystem to facilitate knowledge acquisition and application in its truest nature- practical application for future solutions. This facility focuses on developing advanced analytical tools and techniques to solve complex problems in various domains such as healthcare, finance, marketing, and social media. Through strong industry collaborations and over 30 ultra-modern labs the university provides the requisite exposure for talents like Shubham to succeed in their ambitious career. His journey exemplifies how Galgotias alumni are powering digital infrastructure at scale across global enterprises.

Students of Design at Galgotias Undertake insightful Industrial Visit

Students form Galgotias School of Design recently undertook an enriching academic visit to Little Illusion Preschool,

Creative minds of tomorrow, gain insight today”

Greater Noida as part of their coursework on designing early childhood learning environments. The visit provided them with direct exposure to the spatial, sensory, and functional aspects that make a preschool setting safe, engaging, and developmentally supportive.

The importance of designing age-appropriate learning spaces for children, equipped with safety measures has increased manifold in the past years. Child-friendly spaces provide comfort and security while encouraging exploration and learning. This makes the science behind their construction a highly valued skill. One that the second-year students of design at Galgotias acquired on this visit. As the world becomes a global village and India continues to adopt international standards, Galgotias University remains committed to empower the nation with a skilled youth workforce. Following its mission to bridge the gap between academia and ever-evolving industry it gave aspiring designers a generous peek into the real-world application of designing techniques. During the visit, students gained valuable insights and professional strategies as

they observed key design elements such as safety measures, age-appropriate scaling, colour psychology, material choices, and interactive learning zones. This broadened their perspective on how design influences early education. This experience not only deepened their understanding of child-centric interiors but also sparked creative inspiration for their ongoing design projects.

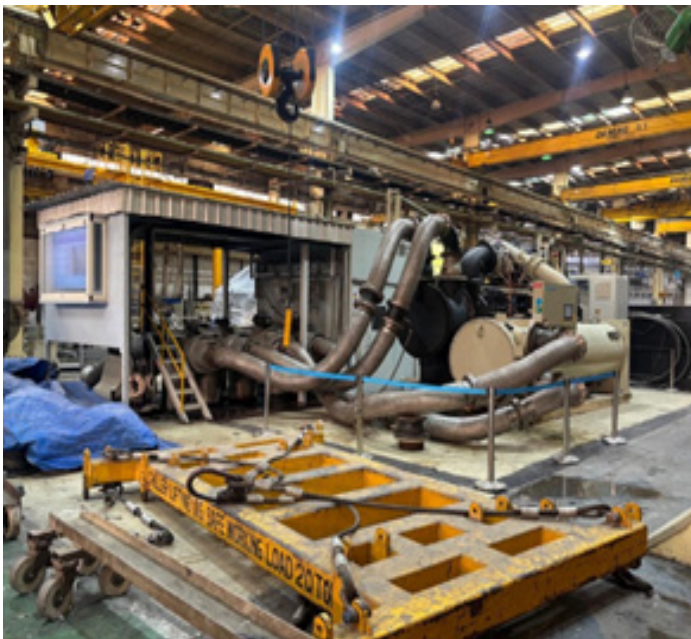

Observing spatial, sensory, and functional aspects of pre-school designing”

4 Galgotias University collaborates with Daikin for sustainable development.

Innovation met commitment as Galgotias University collaborated with Daikin Air Conditioning Pvt Ltd. for sustainable development. The University has recently undergone an installation of a high-capacity chiller system in the campus. This comes as a constructive effort towards raising the quality of higher education while being mindful of the campus carbon footprint. Daikin Air Conditioning Pvt Ltd. Believes that “cities require innovative solutions to create healthy and comfortable air environments that carry a low environmental footprint.” This is the need of the hour in a world where global warming is becoming a more serious issue each day with carbon dioxide alone contributing to 76 percent of greenhouse gas effect. According to European Union’s official website, human-induced global warming has increased at a rate of 0.2°C per decade. This is dangerous and detrimental, for the Paris agreement marks 1.5°C

as the maximum progression limit. Galgotias University remains more committed than ever to foster revolutionary solutions that bring value back to the society and to the planet. This intent is clearly reflected in choosing Daikin as its buildout

“Factory floor: where aspirations meet application” partner for the upcoming infrastructure development on campus. The latter functions with a mission of ‘bringing value to the earth’, its advancements

in energy-efficient products, help reduce the environmental footprint during production and transportation. As an innovation driven educational institution, Galgotias University is determined to nurture research and adopt environment friendly technologies that would aid in national development via youth upskilling while being gentle on the environment. From an in-house water treatment plant to cultivating diverse flora across campus, Galgotias University stands in solidarity with United Nations’ Green campus initiative under UNEP Sustainable University Framework, leaving no stone unturned in pursuit of sustainability. Addition of high end facilities is another step by the university towards creating a student-centric, sustainable, and future-ready learning environment, ensuring greater comfort and support for both active learning and academic excellence.

Galgotias University Mechanical Engineering Students Take Top Honors with Best Concept Design.

Galgotias University’s Mechanical Engineering students won the Best Concept Design award in a

Mechanical Engineering students shine at India Design Week 2025

prestigious competition, showcasing their innovative design skills and dedication to fostering talent and excellence in engineering education. The winning team, consisting of talented students, worked tirelessly to develop a cutting-edge concept design, outperforming their peers. Galgotias University is dedicated to fostering talent and innovation among its students, particularly in the Mechanical Engineering department. The university offers mentorship and

guidance through experienced faculty members, industry partnerships, and awards. Students participate in research projects, hackathons, and innovation competitions, while accessing state-of-the-art facilities. Industry partners provide practical experience and internships, while industry experts participate in guest lectures. The university also recognizes outstanding achievements with awards like the “Research & Innovation Award” and “Education Excellence Award.” Mentorship programs pair students with experienced professionals, helping them develop essential skills and make informed career decisions. Galgotias University’s Mechanical Engineering students have won the Best Concept Design award at India Design Week 2025, enhancing their reputation as a hub for innovation and excellence. The award will attract top talent, faculty, and industry partners, solidifying the university’s position as a leader in engineering education. The design will likely lead to increased industry collaborations,

student opportunities, and research and development. The university’s commitment to fostering innovation will inspire students to pursue excellence in Mechanical Engineering. The design has the potential to make a significant impact in the industry, attracting top talent and faculty. Galgotias University’s Mechanical Engineering students have won the Best Concept Design award, showcasing their exceptional skills and talent. The university’s emphasis on practical learning, industry partnerships, and research opportunities has enabled students to develop cutting-edge solutions. The award-winning design reflects the university’s culture of innovation and entrepreneurship, providing students with the skills and confidence to succeed in their chosen field. Galgotias University’s commitment to excellence serves as a motivation for current and future students to push the boundaries of innovation and creativity, ensuring they continue to produce high-quality engineers.

5 Leadership Elevated: Galgotias University’s Mentors Complete Program at Pegasus Institute

Galgotias University’s active learning mentors have completed a leadership development program at Pegasus Institute, Dehradun, a significant milestone in faculty development initiatives. The program, which emphasizes practical learning, team building,

Active Learning Mentors Complete Transformative Leadership Development Program”

and personal growth, equips leaders with skills, knowledge, and mindsets to excel in their roles and drive organizational success. The Leadership Development Program at Pegasus Institute in Dehradun aims to equip leaders with essential skills and mindsets to excel in their roles and drive organizational success. Key highlights include understanding leadership styles, self-assessment, and developing leadership competencies such as communication, decision-making, and problem-solving. The program also fosters team dynamics, effective communication, and conflict resolution techniques. Personal growth is also emphasized, with mentors developing self-awareness, emotional intelligence, and personal branding.

Strategic planning, innovation, and change management are also taught, with participants learning goal-setting, analysis, and implementation. Mentorship and coaching was provided, with participants paired with experienced mentors who provide guidance and feedback. The program also includes coaching sessions, allowing participants to reflect on their progress, set goals, and develop strategies for improvement. By focusing on these key areas, the Leadership Development Program at Pegasus Institute equips participants with a comprehensive understanding of leadership principles, practices, and strategies, enabling them to excel in their roles and drive organizational success. Pegasus Institute in Dehradun offers comprehensive leadership training programs, focusing on practical experiences, reflection, and application. It offers experiential learning, personalized feedback, and industry expertise, receiving positive feedback from industry leaders. The leadership development program at Pegasus Institute, Dehradun, has been completed by Galgotias University’s Active Learning Mentors. The program, which focuses on experiential learning, team building, and personalized feedback, has equipped the mentors with the necessary skills and knowledge to excel in their roles. The program has also provided valuable insights into effective leadership strategies, decision-making, and communication. The completion of this program is a testament to Galgotias University’s commitment to investing in the development of its faculty and staff. As the mentors return to their roles, they will apply the knowledge gained to drive positive change within their organization. Future prospects for the mentors include leadership roles, mentoring, and research and innovation projects. Overall, the program’s success is expected to have a lasting impact on their professional development and the university as a whole.

Galgotias University Advances Healthcare Research Through ICDLA-2025

On May 10, 2025, the 2nd International Conference on Clinical Diagnostics & Laboratory Advancements (ICDLA-2025) was proudly hosted by Galgotias University’s School of Allied Health Sciences. The conference, which took place in a hybrid format at the Swami Vivekanand Auditorium, focused on the topic of “Advancements in Point-of-Care Testing & Rapid Diagnostics,” which reflected the rapid development of contemporary medical diagnostics. Scholars, researchers, clinicians, and students from all over India and overseas attended the conference, which was organized by the Department of Medical Laboratory Technology. The gathering provided a lively forum for interdisciplinary cooperation, scientific debate, and knowledge sharing in the area of clinical diagnostics. Prominent speakers who contributed insightful commentary and global viewpoints graced the conference. Distinguished among them were Dr.

Balamurugan Balusamy, a prominent scholar and researcher; Prof. (Dr.) Ashok Rattan, a well-known expert in clinical microbiology; and Dr. Salma Abdi Mahmoud from Sudan, who

contributed to the discussion with international advancements in diagnostic technologies. Keynote speeches, professional technical sessions, and oral and poster presentations by young researchers and professionals were all part of the event’s well-rounded schedule. Modern point-of-care diagnostic instruments and laboratory technology developments that are influencing

the direction of public health and personalized medicine were among the subjects covered. The organizing committee stressed in his opening remarks the value of accurate and easily accessible diagnostic tools, especially in settings with limited resources. Galgotias University’s goal to combine research, innovation, and teaching was echoed at the conference. Distinguished among them were Dr. Balamurugan Balusamy, a prominent scholar and researcher; Prof. (Dr.) Ashok Rattan, a well-known expert in clinical microbiology; and Dr. Salma Abdi Mahmoud from Sudan, who enriched the discourse with global innovations in diagnostic technologies. Galgotias University’s commitment to academic excellence and leadership in the field of Medical Laboratory Sciences was reaffirmed at ICDLA-2025, which also gave attendees the chance to have productive conversations and establish lasting partnerships.

Industry Exposure Visit by School of Design, Galgotias University

On 16th May 2025, students from the School of Design, Galgotias University had the remarkable opportunity to visit the studio of renowned interior designer Mr. Hardeh Chawla in Gurgaon. The visit offered a deep dive into real-world design practices, with a guided tour of the studio’s cutting-edge production units—featuring high-end furniture manufacturing, upholstery, and artifact and sculpture creation.

The School of Design is a vibrant, interdisciplinary space where creativity meets purpose. Students are offered future-facing programs in Product Design, Interior Design, Visual Communication, Advertising Graphic & Web Design, Fashion Design, Interaction Design, and Design Research & Insights—combining hands-on learning with industry exposure and research-driven practice. Hardeh Chawla is the co-founders of Essentia Environments. With a rich tapestry of achievements spanning over 25 years in the industry, his journey is marked by accolades, creativity, and a profound dedication to crafting spaces that transcend the ordinary. For Hardeh Chawla, architecture is not merely about aesthetics; it’s a harmonious blend of functionality, uniqueness, and personality of the client. With a keen focus on sustainability, he seamlessly integrates biophilic

principles into his designs, fostering a sense of harmony and well-being. Mr. Chawla and his expert team conducted an extensive 1.5-hour interactive session, engaging students in meaningful discussions and offering valuable industry insights. The exposure to professional workflows, detailed craftsmanship, and material techniques left students inspired and better prepared to bridge the gap between academic learning and industry expectations.

Mr. Hardeh Chawla Conducts an Interactive Session with the Students

Spreading Awareness, Saving Lives: Galgotias University’s hosted Cancer Health Camp.

Galgotias University, a renowned institution, has organized a Mega Health Camp on Cancer Awareness to promote health and wellness among its students, faculty, and community. The event aimed to disseminate information about cancer prevention, early detection, and treatment options. The event brought together medical experts, healthcare professionals, and community members to understand cancer’s impact on individuals and families. Galgotias University’s proactive approach to addressing health concerns and promoting community well-being reflects its commitment to fostering a healthier and more informed society. Galgotias University’s Mega Health Camp on Cancer Awareness featured expert talks, free health check-ups, awareness drives, interactive sessions, community engagement, resource distribution, and support services. Oncologists and healthcare professionals delivered informative sessions on cancer prevention, detection, and treatment options. Participants underwent free health checks to identify potential health risks and detect cancer early. The event also featured awareness drives, interactive sessions, Q&A discussions, and community engagement to promote responsibility towards health awareness and cancer prevention. The event also provided emotional support and counselling services to cancer-affected individuals. The Mega Health Camp on Cancer Awareness organized by Galgotias University has significantly raised awareness about cancer, its risks, symptoms, and treatment options.

The event provided free health check-ups and screenings, facilitating early detection of cancer, potentially saving lives. It fostered community engagement and empowered individuals to make informed decisions about their health. The camp promotes health and wellness, aligning with Galgotias University’s commitment to a healthy society. It has the potential to reduce cancer-related mortality rates and build trust and credibility. The event’s success may inspire future initiatives and improve community health outcomes, potentially reducing cancer-related mortality rates and improving overall health.

“Students are engaging with experts

7 Global Learning in Action: HBS FIELD Team Engages with Galgotias University

We were honoured to welcome the delegation from Harvard Business School and India Today Media Institute as part of the prestigious HBS FIELD Global Capstone Project. The visiting team included Ms. Laura De Giorgis, Mr. Matt Collins, Ms. Lorraine Bichara, and Mr. Sebastián Sufan, members of the HBS FIELD program, along with Ms. Prerna Koul Mishra, Dean & Director of India Today Media Institute. This collaboration reflects Galgotias University's vision of building strong international partnerships and promoting innovative learning environments that prepare students for

global leadership role. The discussions emphasized the importance of global academic collaboration and highlighted Galgotias University's growing role in

(Harvard students and galgotias student exchanging words on their project)

fostering excellence-driven education in India. During their visit, the team

engaged in insightful interactions with the students and leadership of Galgotias University, gaining valuable perspectives on the institution's progress, vibrant campus culture, and innovative G-SCALE active learning ecosystem. The collaborative discussions reflected our shared vision for global academic exchange and excellence-driven education. This collaboration reflects Galgotias University's vision of building strong international partnerships and promoting innovative learning environments that prepare s

tudents for global leadership role

Galgotians secure training internship at Jaypee Greens Golf Spa and Resort.

Leaders of tomorrow with Domain experts"

Students from the school of Hospitality (SOHT) at Galgotias University have been selected by Jaypee Greens Golf & Spa Resort, Greater Noida for Industrial Training. In line with the new education policy, industrial training is mandatory for students. This ensures that the next generation workforce is industry ready. Proving their excellence and professional

potential, 15 Galgotians were selected by the reputed firm with a hospitality empire stretching across north India. Their training is expected to begin on 1st August 2025 and continue until 5th January 2026, providing them with valuable hands-on experience in the hospitality industry.

This induction exemplifies the commitment of SOHT at Galgotias University to establish collaborations for excellence in the hospitality & tourism profession. Jaypee Greens Golf & Spa Resort is an ultra-luxurious hospitality establishment in the region with 170 premium rooms, seven fine dining experiences, state-of-the-art spa along with a banquet and conference facility with a 30-1400 seating capacity. Such combination of features makes it the perfect arena for aspiring hospitality leaders to hon their skills. As the world evolves to foster high-stake professional competition and increased recognition of industry ready professionals, Galgotias University stands determined to bridge the gap between academia and industry to empower students for a successful future.

Galgotias Mechanical Engineering Students Win National Design Glory at IDW 2025!

Galgotias University is thrilled to announce that Rohit Kumar, Avneet Pandey, Madhav Raj Singh & Krishna Jadoun, brilliant students of Department of Mechanical Engineering Galgotias University, have secured the Best Concept Design Award at the prestigious Indian Design Week (IDW) 2025, organized by ICT Academy and hosted by Lovely Professional University. Their pioneering project, Glass Cleaning Robots, developed using Autodesk Fusion 360, presents a cutting-edge solution to automate vertical glass cleaning enhancing safety, efficiency, and accessibility in today's infrastructure. India Design Week (IDW) 2025 is a premier platform for aspiring engineers to showcase their creativity and problem-solving skills. In this 6th edition, student participants will come together to design innovative solutions for real-world challenges, using Autodesk FUSION software as a key tool in their journey. This achievement is a shining testament to the innovation, skill, and engineering excellence nurtured at Galgotias University. We extend heartfelt appreciation to Shri Dr. Ashok Kumar Mittal, Chancellor, LPU, for creating and sustaining this

national platform that empowers young innovators across India. Under the visionary leadership of Dr. Dhruv Galgotia, CEO, Galgotias University, and the mentorship of the esteemed faculty, the students continue to transform ideas into impactful solutions, making their mark on national and global stages.

Galgotias Mechanical Engineering Win National Design Glory at IDW 2025

GLIMPSES
